

IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF DELAWARE

ZAXCOM, INC. : CIVIL ACTION
:
v. : NO. 23-1245
:
RODE MICROPHONES, LLC, *et al.* :

ORDER

AND NOW, 24th day of February 2025, in light of the parties' joint claim construction chart (DI 127), it is **ORDERED** having considered the status of the claim construction disputes, we conclude that it will not be necessary to require narrowing of the asserted claims before the claim-construction process is completed. While not the most modest of claim construction disputes, it appears that the parties made good progress in focusing the issues and what remains appears commensurate with the scope of the case and fairly straightforward. If the parties believe that the word limits for claim-construction briefing will need to be increased, they should meet and confer and make a proposal.

MURPHY, J.
