The Wireless GO II TX is an extremely versatile and ultra-compact wireless transmitter that's perfect for interviews, filmmaking and wide range of content creation. Simply clip it onto your talent and record with the high-quality built-in microphone, or attach to a belt or boom arm and run a lavalier into the 3.5mm analog input. You can capture over 40 hours of on-board recordings on the transmitter itself, or transmit the audio via RØDE's cutting-edge Series IV 2.4GHz wireless transmission with up to 200m (line of sight) range.

Note: This product requires a RØDE Series IV RX (receiver) to operate, such as the Wireless GO II, Wireless ME, Wireless PRO, RØDECaster Pro II, RØDECaster Duo or Streamer X.

RØDE Guarantee

"I take my obligations to our customers, the environment and future generations seriously. To that end, and to give comfort to current and future RØDE customers, we have implemented a [illegible]

end, and to give comfort to current and future RØDE customers, we have implemented a 5-year warranty on all wireless products. This means if you own a RØDE wireless product it now has a 5-year warranty, regardless of when you bought it. At the end of that 5-year period RØDE will offer you a seamless and cost-effective pathway to upgrade.

I also give you my personal guarantee that all future RØDE wireless product designs will have user-replaceable batteries where possible, or be supported by our 5-year warranty and sustainable battery recycling program.

If you have a RØDE wireless product that requires responsible disposal, please contact our customer support team."

– Peter Freedman AM, Founder

Unmatched Versatility

The Wireless GO II TX is perfectly suited for filmmaking, interviews, presenting and a wide range of content creation applications where you need to capture crystal-clear wireless audio. It features a broadcast-quality built-in microphone as well as a 3.5mm input for connecting lavaliers, VideoMics or other external microphones, and boasts over 40 hours of on-board storage to ensure your recordings are backed up, safe and sound.

The Wireless GO II System

The Wireless GO II TX transmitter is a great addition to your RØDE Series IV wireless system, whether you're expanding your Wireless GO II or Wireless ME system, or seeking a wireless audio source to pair with your RØDECaster Pro II or RØDECaster Duo.
