# SUPPLEMENTAL DECLARATION OF GLENN NORMAN SANDERS

EXHIBIT 2064

## SUPPLEMENTAL DECLARATION OF GLENN NORMAN SANDERS

I, Glenn Norman Sanders, under penalty of perjury, declare as follows:

1. I am over the age of 18 and have personal knowledge of the facts stated below. If called upon to testify, I could and would testify competently. I am the founder and owner of Zaxcom, Inc., and I serve as custodian of records for the company. In that capacity, I am familiar with the manner in which Zaxcom's records are created, maintained, and relied upon in the ordinary course of its business. I make this declaration in support of Zaxcom Inc.'s Patent Owner Response to Petitioner's Objections to Evidence Under 37 C.F.R. § 42.64(b)(2).

1. Exhibit 2031 is a true and correct copy of the TRX900AA User Manual. The current version of the manual is dated in 2013, and it was created, at my direction, to describe the features and operation of the TRX900AA product. The manual is provided to detail the technical features of the TRX900AA, which features have not changed since the product was introduced in 2005. Since its creation, the manual has been maintained in the regular course of Zaxcom's business and Zaxcom's website. A copy of the manual is also kept on Zaxcom's servers.

2. Exhibit 2032 is a true and correct copy of the TRX900LA/LAS User Manual. The current version of the manual is dated 2013, and it was created, at my direction, to describe the features and operation of the TRX900LA/LAS product. The manual is provided to detail the technical features of the TRX900LA/LAS, which features have not changed since the product was introduced in 2005. Since its creation, the manual has been maintained in the regular course of Zaxcom's business and Zaxcom's website. A copy of the manual is also kept on Zaxcom's servers.

2. Exhibit 2038 is a brochure from the Television Academy relating to the Engineering Emmy Awards. I received this brochure in 2016, and since that time it has been stored on

Zaxcom's servers at my direction. It has been maintained in the regular course of Zaxcom's business, consistent with Zaxcom's regular practice of retaining such records. To the best of my knowledge, this exhibit is a true and correct copy of a record maintained by Zaxcom in the ordinary course of business, and it is trustworthy.

3. Exhibit 2039 is a press release announcing the honorees for the 68th Engineering Emmy Awards. I received this document from the Television Academy in 2016, and since that time it has been stored on Zaxcom's servers at my direction. It has been maintained in the regular course of Zaxcom's business, consistent with Zaxcom's regular practice of retaining such records. To the best of my knowledge, this exhibit is a true and correct copy of a record maintained by Zaxcom in the ordinary course of business, and it is trustworthy.

4. Exhibit 2040 is an Emmy Award entry form for outstanding achievement in engineering development for the 2015-2016 year. I downloaded this entry form from the Television Academy website and completed it on or around August 2015 before submitting it to the Television Academy shortly thereafter. Since that time, the entry form has been stored on Zaxcom's servers at my direction. It has been maintained in the regular course of Zaxcom's business, consistent with Zaxcom's regular practice of retaining such records. To the best of my knowledge, this exhibit is a true and correct copy of a record maintained by Zaxcom in the ordinary course of business, and it is trustworthy.

5. Exhibit 2041-2043 are photographs of an Emmy award I received in 2016. The award is inscribed with "ACADEMY OF TELEVISION ARTS AND SCIENCES; 2016 PRIMETIME EMMY AWARDS; OUTSTANDING ACHIEVEMENT IN ENGINEERING DEVELOPMENT; DIGITAL RECORDING WIRELESS (ZAXCOM INC); GLENN SANDERS." These photos fairly and accurately depict the award. They are identifiable as an

Emmy award, in part by the golden statue on top of the base with the inscription. I received this award from the Television Academy at the Emmy Awards ceremony in Hollywood, California in 2016. I took these photographs of the award at or near the time of IPR2018-00972 (November 7, 2018-February 5, 2019), IPR2018-01129 (January 24, 2019-April 24, 2019), and IPR2018-01130 (January 24, 2019-April 24, 2019). Since that time, the photographs have been stored on Zaxcom's servers, while the physical Emmy Award has been kept in my office. I retain the original Emmy Award in my possession and can provide it for inspection if needed. To the best of my knowledge, these exhibits are true and correct copies of records maintained by Zaxcom in the ordinary course of business, and they are trustworthy.

6. Exhibit 2044-2045 are photographs of the Academy Award presented to myself and my co-inventor, Howard Stark, "for the design and engineering of the Zaxcom Digital Wireless Microphone System." The award states "[t]he Zaxcom system has advanced the state of wireless microphone technology by creating a fully digital modulation system with a rich feature set, which includes local recording capability within the belt pack and a wireless control scheme providing real-time transmitter control and time-code distribution." These photographs fairly and accurately depict the award. They are identifiable as an Academy Award, in part due to the background label of the paper. I received this award at the Academy Awards ceremony in Hollywood, California, on February 11, 2017. I took these photographs at or near the time of IPR2018-00972 (November 7, 2018-February 5, 2019), IPR2018-01129 (January 24, 2019-April 24, 2019), and IPR2018-01130 (January 24, 2019-April 24, 2019). Since that time, the photographs have been stored on Zaxcom's servers, while the physical Academy Award has been kept in my office. I retain the original Academy Award in my possession and can provide it

for inspection if needed. To the best of my knowledge, these exhibits are true and correct copies of records maintained by Zaxcom in the ordinary course of business, and they are trustworthy.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on this 29th day of September, 2025 in Franklin Lakes, New Jersey.

/Glenn Sanders/
