X1 Professional Client Named Best Gear of the New year (2008) By Laptop Magazine

For Businesses

For Individuals

PASADENA, CA – January 23, 2008 – X1 Technologies, Inc., a leading provider of user-centric desktop and enterprise search solutions, today announced that its X1 Professional Client has been selected by *Laptop Magazine* for inclusion in its 10th annual Mobile Tech Buyers' Guide. *Laptop Magazine's* "Ultimate Mobility" special issue hails the X1 Professional Client as "supremely powerful" and names it one of 5 must-have utilities that "keep your notebook running in top shape and save time."

The X1 Professional Client is an award-winning application that allows individuals and businesses to search their computer, email, and their network through a single, powerful interface to instantly find information, preview it in its native format, and take action on it immediately. This effectively reduces or eliminates time spent hunting through various applications, email systems, file folders, and network repositories for information.

"We believe that the X1 Professional Client is the fastest, most intuitive, most powerful search application available, and we're thrilled to have *Laptop Magazine* recognize its tremendous time-saving ability," said John Waller, president of X1 Technologies.

Laptop Magazine reviewers praised the way that the X1 Professional Client "divides results into content types (pictures, e-mail, contacts, music, etc.) to make vertical searching more efficient" and recognized the power of X1's Preview Pane, which "lets you sample and scan items without launching the file's associated program." Furthermore its "wide range of [post search] actions" can be used to interact with individual or multiple search results, saving users valuable time and enabling bulk operations.

The X1 Professional Client integrates with a variety of messaging and email management systems, including: Microsoft Outlook and Exchange, Microsoft Outlook Express, Lotus Notes and Domino, Mozilla Thunderbird, PST Archives, and Symantec Enterprise Vault. Part of the X1 Enterprise Search Suite, the X1 Professional Client is available individually for \$50 and can be purchased and download from www.x1.com.

The X1 Enterprise Search Suite consists of the award-winning X1 Professional Client, X1 Enterprise Server, and a suite of 16 packaged Content Connectors, providing unified access to popular enterprise repositories, applications, and 3rd party search engines. To learn more about the entire X1 Enterprise Search Suite, visit www.x1.com/products/.

About X1

X1 Technologies, an innovator in email and desktop search solutions, was founded in 2003 with the vision of providing a single user interface to quickly find, view, and act on data regardless of where it lives. X1's patented search technology powers X1 Mobile Search, X1 eDiscovery, and the award-winning X1 Professional Client, used by millions. Headquartered in Pasadena, California, X1 is an operating company of Idealab. For more information about X1 Technologies, visit <http://www.x1.com> or call (866) 918-3241.
