Subject: Re: Publication Date of Microelectronic Engineering 127:44-50 [241121-002581]

[EXTERNAL EMAIL]

Dear Alison Patitucci,

Thanks for your email.

Elsevier is unable to provide any such declaration because the date is clearly mentioned in the online ScienceDirect version and its corresponding PDF. Hence, the date has already been declared by Elsevier and a separate document cannot be provided for the same.

Regards,
Saanthi

Thank you, Saanthi. Is Elsevier able provide a declaration regarding these dates?

Thank you,

Alison

Dear Alison Patitucci,

Thanks for your email.

The date '5 September 2014' refers to the publication date of the [Volume 127](#) of the journal ([Microelectronic Engineering](#)). The date on which the article was made available online for the first time since its acceptance by the journal is '24 April 2014' and this is reflected by the 'Available online' date on ScienceDirect.

I hope this helps.

Regards,
Saanthi

Date: Wednesday, November 20, 2024 04:58 PM GMT

Good morning,

We are handling a patent litigation where the date that following article was made available to the public is in dispute:

Brian Cardineau et al., Photolithographic properties of tin-oxo clusters using extreme ultraviolet light (13.5 nm), Microelectronic Engineering 127:44-50 (2014);
<https://doi.org/10.1016/j.mee.2014.04.024>

I see that the publication date on the website is September 5, 2014. We would like to determine the dates that the article was available online and/or was published in paper format. Can you please confirm the date available? Does Elsevier/ScienceDirect ever provide a declaration/certification for when this article was made publicly available?

Thank you,
Alison
