Q. Papers 19, 20, 27, 34, 58, 78, 80

These Papers contains quotations or references to the above exhibits that may be deemed confidential for the same reasons explained above.

II. GOOD CAUSES EXISTS TO EXPUNGE

A party seeking expungement from the record must show good cause by demonstrating “that any information sought to be expunged constitutes confidential information, and that Petitioner’s interest in expunging it outweighs the public’s interest in maintaining a complete and understandable history of this inter partes review.” *Atlanta Gas Light Co. v. Bennett Regulator Guards, Inc.*, IPR2013-00453, Paper 97 at 2 (P.T.A.B. Apr. 15, 2015).

As described above and in the parties’ motions to seal (Papers 17, 21, 26, 57, 75, 77, 81), the documents include the parties’ and third parties’ confidential information and sensitive business information regarding business relationships, confidential agreements and could cause competitive business injury to the involved parties and third parties.

A public version of Exhibit 2011 is already filed on the docket, so the public’s interest is not affected by expunging the sealed version of Exhibit 2011.

For Exhibit 2017, the public Institution Decision, Paper 49, makes no reference to Exhibit 2017. The second Institution Decision, Paper 85, makes no reference to Exhibit 2017. Therefore, the public would be able to understand the

Board's decisions and the record without referencing Exhibit 2017.

The Board's first sealed Institution Decision, Paper 34, is publicly available without redactions as Paper 49.

The remaining exhibits pertain to the real-parties-in-interest analysis of the parties and Board. As such, they do not go to the patentability of the challenged claims. Therefore, expunging these exhibits would not impact the public's understanding of the record as to the substantive merits. Furthermore, these exhibits contain confidential and sensitive business information that would create competitive injury to the parties and third parties were it made public.

THEREFORE, Patent Owner and Petitioners respectfully request that the Board expunge the confidential documents.

Dated: August 12, 2026

Respectfully submitted,

Birchtech Corp.
