Subject: Pegasus Wireless v. Verizon at al - Narrowing Asserted Patents and Claims
Date: Monday, July 28, 2025 2:41:10 PM

Counsel:

In an effort to narrow claims and focus the allegations of infringement in this case, Plaintiff will not assert at trial the following United States Patents:

U.S. Patent Number 10,181,931
U.S. Patent Number 11,219,000
U.S. Patent Number 9,894,644

For the remaining patents, Pegasus intends to assert the following claims at trial:

U.S. Patent Number 10,009,161: claims 3 and 5
U.S. Patent Number 11,540,272: claims 1 and 8
U.S. Patent Number 11,627,631: claims 13, 14, and 16
U.S. Patent Number 10,616,932: claims 1, 2, 4, 8, 9, and 11

We reserve the right to narrow the asserted claims and/or patents further before trial in accordance with the Court's Amended Docket Control Order. In addition, Pegasus's position is that any non-elected claims should be held in abeyance pending further development in this case.

Thanks,
Jeff Melsheimer
