View Full Version : [Link about Starting & protecting AC motors](#)

Peter_1 20-04-2007, 10:03 PM
http://www.automation.schneider-electric.com/as-guide/EN/pdf_files/asg-4-motor-starting-and-protection.pdf

Peter_1 20-04-2007, 10:06 PM
 IN fact, the whole site now I'm looking further <http://www.automation.schneider-electric.com/as-guide/EN/solution-guide.htm>

bernard 20-04-2007, 10:08 PM
 Hi Peter
 Excellent Link Thankyou
 Regards Bernard

Peter_1 20-04-2007, 10:10 PM
 Another one, have just clicked on 2 links <http://www.kilowattclassroom.com/Archive/>

Peter_1 20-04-2007, 10:16 PM
 While Im busy, one of Carrier http://www.xpedio.carrier.com/idc/groups/public/documents/marketing/wp_varfreqdrive.pdf?SMSESSION=NO
 And one of Copeland [http://www.ahlsell.se/upload/2546/Semihermetiska%20kompessorer%20DK,%20DL%20och%20S%20\(engelska\).pdf](http://www.ahlsell.se/upload/2546/Semihermetiska%20kompessorer%20DK,%20DL%20och%20S%20(engelska).pdf)
 This one costs even some money (see first page)

Peter_1 20-04-2007, 10:22 PM
<http://www.legacypower.net/Documents/TrainingPDF/BasicsofControlComponents.pdf>
 Interesting application notes <http://www.abb-control.com/timerscat/Sect13.pdf>

Peter_1 20-04-2007, 10:30 PM
 All found while looking for some info about part-winding

Peter_1 20-04-2007, 10:33 PM
<http://www.pacificliquid.com/puzcomplete.pdf>
 From the same website
<http://www.pacificliquid.com/pumpintro.pdf>
<http://www.pacificliquid.com/selfprimer.pdf>
<http://www.pacificliquid.com/motorintro.pdf>
<http://www.pacificliquid.com/IMPELLERS.pdf>

marc5180 20-05-2007, 07:33 PM
 Peter, you have been busy. Great links
 Thanks

momo 20-05-2007, 10:06 PM
 Why can't lecturers explain things about pumps as clearly as commercial ventures do :confused:
 Thanks Peter_1, there is always so much more to grasp on physics and technology, somehow, somewhere it will ring a bell and solve something :)
 I like the short article format... about 15-30 mins then zzzzzz.
