Complaint Summary

This is a patent infringement lawsuit filed by Mylan Institutional LLC and Apicore US LLC (collectively "Plaintiffs") against Hong Kong King-Friend Industrial Co. Ltd. ("Defendant") in the U.S. District Court for the Eastern District of Texas. Plaintiffs allege that Defendant's Abbreviated New Drug Application (ANDA) product infringes on three of Plaintiffs' patents related to a process for manufacturing high purity isosulfan blue. The nature of the case is patent infringement. Plaintiffs claim Defendant's ANDA product infringes on Patent Nos. 9,353,050, 10,626,086, and 10,752,580 (the "Patents-In-Suit"), which cover a process for making high purity isosulfan blue. The defendant is Hong Kong King-Friend Industrial Co. Ltd., a company organized under the laws of Hong Kong with addresses in Hong Kong and China. The plaintiffs are Mylan Institutional LLC, a Delaware pharmaceutical company, and Apicore US LLC, a Delaware pharmaceutical company. Plaintiffs claim the infringement has damaged them by displacing sales of their own isosulfan blue product. Plaintiffs seek injunctive relief preventing Defendant from making, selling, or importing the allegedly infringing product. Plaintiffs also request a declaratory judgment that Defendant has infringed and will continue to infringe the patents.

This [Lexis+ AI Summary](#) was generated from a [complaint filed on 2021-11-09](#). Generative AI summaries like this may be inaccurate or contain information not present in the document.
