Your Skin Will Love the Depth of Cleansing and Hydrating. You Will Love Your Radiant, Moisturized and Clear Skin.

"Water, truly is The Essence of Life"

"When our cells are not fully hydrated they cannot function at their optimal level. This leads to much of the tissue damage that we call aging. You need to repair the tissues in your body that are losing [water]..., utilizing topical products that encourage healthy cell turnover plus a mix of antioxidants, anti-inflammatories and hydrating ingredients."

Dr. Howard Murad, MD

What People Are Saying About The HydraFacial™

Case 1: SEVERE HYPERPIGMENTATION & FINE LINES

"To my surprise, I noticed a difference in my skin after my first visit. The dark spots were much lighter and my whole face looked moist and glowing. Moreover, the fine lines on my forehead were gone! I am so happy because I am getting married next month and my face looks totally different.."

Carole C.

Case 2: ACNE & SENSITIVE SKIN; PUFFY EYES

"HydraFacial™ has made such a difference. My skin is so much softer, the pores on my nose are clear and I no longer get break-outs on my chin or have redness on my forehead. Best of all, it has helped clear-up my allergy-induced puffy and peeling eyelids."

Janine S.

Case 3: ETHNIC & OILY SKIN

"I used to have very oily skin & large pores, especially on the t-zone area. Since my HydraFacial™ treatments, I have seen significant improvement with my skin, and received numerous compliments on how nice it looks. My skin is clear, and I no longer have breakouts and problems with my pores. The treatment is simple, relaxing and most importantly, effective."

Elmina P.

HydraPeel™ Tip

Q: What is HydraFacial™?

A: *HydraFacial™ is a NEW breakthrough in aesthetic technology. The HydraFacial™ takes its name from the root word Hydrate: "to cause to take up moisture." This ability to moisturize the skin separates the HydraFacial™ from all other skin resurfacing procedures. The HydraFacial™ removes dead skin cells and impurities while simultaneously infusing the new skin with cleansing, hydrating and moisturizing serums. The treatment is soothing, refreshing, non-irritating and immediately effective.*

Q: Why is HydraFacial™ good for my skin?

A: *Hydration is the foundation of healthy, radiant skin. Irritation of the skin has been proven to increase the signs of aging. The HydraFacial™ is a hydrating & non-irritating treatment.*

Q: Am I a candidate for the HydraFacial™ treatment?

A: *The The HydraFacial™ treatment is designed for all skin types. Even the most sensitive skin easily tolerates the The HydraFacial™ treatment. Your skincare professional may custom-blend the treatment serums for your unique skin conditions. Consult your physician or skincare professional for a skin evaluation and sensitivity test.*

Q: How long does the treatment take? Is there any downtime or pain?

A: *The HydraFacial™ treatment is a fast, efficient treatment that takes as little as 15 minutes. There is no discomfort during the procedure - it is often described as feeling like a "cool paintbrush moving slowly over the face". You may put on make-up and return to your normal activities right after the treatment since there is no downtime.*

Q: What results may be expected? How many HydraFacial™ treatments are needed to see results? How long do the results last?

A: *Many people report seeing visible skin refinement and an even, radiant skin tone after just one treatment. The smooth results and hydration may last for five to seven days or even longer. A series of six treatments, one treatment each week, is recommended for improving the appearance of fine lines, wrinkles, hyperpigmentation, and oily/acne-prone skin. After your first series of treatments, you may want to maintain your results with a HydraFacial™ treatment every two to four weeks.*
