**Question:** For a person who is choking, use this device on themselves before used it on the person as successfully? Thanks.

**Answer:** I tried it on myself but was not choking. It felt strong when I handled it well. Resilient enough to do it correctly as I don't know how one would be choking to do it for oneself in an emergency though. It oneself would have the capacity to do it successfully while choking.

**Question:** Could I request to try a adult mask? We are not and we are second any children?

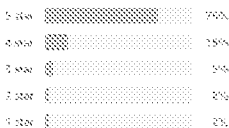

**Answer:** Hello, there are three kits for choking rescue device, one for family (3/3/1), one for adult (3/1/1), and one for children (3/3/3)

Lots of suction. Might be a bit difficult to use on yourself when choking, as it's a bit difficult to pull up. When all times had been large size...but you get one small, one medium and one large. Bigger than I expected. Can't carry it in a purse. They are pretty uncomplicated for the price. Means I never have to use them for real...but, if so, I have them in a bag.

So far we have not had to use one. Hope we never do. Instructions seem clear enough. We kept the large one, used the medium size on the granddaughter's head, and the small to another family's home.

This is not a lifeline. Made in China. Would not trust my child life with this.
