

ADVANCED STRUCTURE FOR BETTER PERFORMANCE

More Advanced Structure To Better Engage Inside Air And More Effective Suction Power

One separate inlet and outlet valves maximize suction power without choking of secondary air relative to patient during use.

Efficient angle valve prevents a certain distance for it is much better to block the relative hole during sucking operation. So this suction force is larger and the suction cannot be interrupted.

Customer Q&A

Customer questions & answers

Q: Please email me! Search for answers

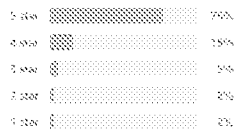

- Question:** Looking for answers. What do you get for what price? Three packages out there at different size prices...
Answer: Yes, 3 packages: small, medium, & large.
By Kathy Scott on February 12, 2022
- Question:** does each device come with three masks a total of three devices and three masks?
Answer: Three different sizes of masks, one device.
By Bookman on January 15, 2022
+ See more answers (1)
- Question:** For a person who is choking, use this device on themselves before used it on the person as successfully? Thanks.
Answer: I tried it on myself but was not choking. It felt strong when I handled it well. Resilient enough to do it correctly as I don't know how one would be choking to do it for oneself in an emergency though. It oneself would have the capacity to do it successfully while choking.
By Jacqueline Devereaux on November 10, 2021
- Question:** Could I request to try a adult mask? We are not and we are second any children?
Answer: Hello, there are three kits for choking rescue device, one for family (3/3/1/1), one for adult (3/1/1), and one for children (3/1/1).

Reviewed in the United States on January 10, 2022

Lots of suction. Might be a bit difficult to use on yourself when choking, as it's a bit difficult to pull up. When all times had been large size...but you get one small, one medium and one large. Bigger than I expected. Can't carry it in a purse. They are pretty uncomplicated for the price. Means I never have to use them for real...but, if so, I have them in a bag.

So far, we have not had to use one. Hope we never do. Instructions seem clear enough. We kept the large one, used the medium size on the granddaughter's knee, and the small on another family's knee.
