Subject: IPR2025-00473 - Discretionary Denial Briefing

CAUTION: This email has originated from a source outside of USPTO. PLEASE CONSIDER THE SOURCE before responding, clicking on links, or opening attachments.

Dear Board,

Further to Petitioner's supplemental brief on discretionary denial filed Thursday June 19, 2025, a public version of the parties joint motion for a stay of the underlying litigation is now available. The public motion is relevant to discretionary denial because (1) Patent Owner acknowledges therein that the underlying litigation has not reached an advanced state, (2) the parties ask the court to vacate pending discovery and claim construction deadlines and (3) the requested stay is indefinite in length. Thus, Petitioner requests permission to file the attached redacted joint motion as an exhibit here.

In addition, Petitioner also asks to file as an exhibit the attached order dismissing the '378 Patent from the underlying litigation, which was recently entered by the District Court.

Thank you for your consideration of this matter.

Best,
Ray Ricordati
