**Subject:** RE: Credit Card per IVR / Service-based authentication

Lia,

Here are the service based auth application with modified Fig. 3 and some adjustments in the text regarding this figure.

The request is now really ready for submission :-)

Regards,

**De Vries & Metman**

Cheered a bit too early.

Fig. 3 still needs an adjustment. That will be coming soon. Please wait a bit before submitting.

Kind regards,

**De Vries & Metman**

Dear Lia,

Indeed, we need to discuss that divisional on the 17th.

Attached, you will find the final version of the service-based authentication application.

I have accepted Frank's changes and made some minor cosmetic changes here and there. I have also removed some dependent claims so that the number of claims has been reduced to 15 (which saves money). The removed dependent claims are still in the "summary of the invention." This matter is therefore still covered by the application.

As far as I am concerned, this application is ready for submission.

Kind regards,

**De Vries & Metman**

**Subject:** Credit Card per IVR

Hi Erik,

I have a letter for the divisional of Credit card per IVR (once your first KPN file, I seem to remember?). The appeal case for the mother is still ongoing, of course. Prior art for divisional + commentary is more or less the same. I have forgotten why we filed that divisional and whether it is still useful. The answer is due on January 7 (+ 10 days ;-)). Are you here on the 17th, and can we take a look at it together then?

Regards,

Lia
