Re: Filings with United States Patent and Trademark Office ("USPTO")

Dear Fahd:

It has come to our attention that your firm, apparently on behalf of Synogen, undertook on July 10, 2019 to make additional filings with the United States Patent and Trademark Office ("USPTO"), using ISE information, oaths, and declarations. Although we understand that Synogen takes the position that the License Agreement has not terminated, under no circumstances is Synogen allowed to file anything with the USPTO without providing "advance copies" to ISE for review. (License Agreement § 9.1.)

This is yet another material breach of the Agreement. It also constitutes a breach of Section 15. Neither is curable.

In addition, we understand that someone filed a child application (16/399,068) on the original patent. No copy of that was provided in advance either. This too is a non-curable breach.

For the avoidance of doubt, as noted in the attached email also sent on July 10, 2019, any authority under the License Agreement or the Limited Power of Attorney or any prior documentation whatsoever is revoked.

Fahd Riaz, Esq.
July 16, 2019
Page 2

Please provide ISE with copies of all filings and communications with the USPTO and/or any foreign patent office since January 1, 2019 no later than July 19, 2019.

Sincerely,

Enka C. Birg
