TRAINING & REPAIR INSTRUCTIONS

It is important the technician performing industry-approved tire repairs be properly trained. Part of Patch Rubbers' commitment to service involves providing both the specialized training needed to make these repairs and the materials necessary to reinforce proper repair procedures. Complete information is available in reference charts, videos and on-site training for passenger, truck and OTR puncture and section repair.

Download PDF files of any Patch repair brochure from this page. PDF files offer instant access to digital brochures that can be viewed on screen or printed for easy reference. Click on the link below to download these catalogs to your computer.
