Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

DETAILED ACTION

Notice of Pre-AIA or AIA Status

1. The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 1/3/2025 & 12/23/2024 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Terminal Disclaimer

3. The terminal disclaimer filed on 11/20/2023 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 17/084,483 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

4. Claims 1-14, 16-33, 35-49, 52-60 are allowed.

The following is an examiner's statement of reasons for allowance:

Yamaguchi (US 20210394566 A1) teaches A functional component to be attached inside a tire, for detecting a state of the tire as information, including: a first substrate having a first sensor that detects a state of the tire; a second substrate having a second sensor that detects a state of the tire different from the state of the tire detected by the first sensor; and a connection means that electrically connects the first substrate and the second substrate, in which the first substrate further includes a communication means that outputs the information detected by the first sensor and the second sensor to outside of the tire, and in which the first substrate and the second substrate are stacked in a tire radial direction, and the second substrate is disposed on an outer side in the tire radial direction. (Abstract)

Yamaguchi (US 20210370727 A1) teaches A functional component in which an electronic component capable of acquiring information inside a tire is housed and which is attachable to an inner peripheral surface of the tire, the functional component including a housing having a housing part for the electronic component and a bottom surface facing the inner peripheral surface of the tire, and a tubular part extending from a peripheral edge of the bottom surface toward the inner peripheral surface. (Abstract)

Yamaguchi however does not anticipate nor render obvious an electrical sensor device that is disposed within the internal cavity and surrounded by a housing wall structure, wherein the housing comprises one or more surface features that are configured to contact the electrical sensor **(emphasis added)** device to prevent movement of the electrical sensor device within the internal cavity

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
