Case IPR2025-00721

Patent No. 9,899,481

**PETITIONER'S UNOPPOSED MOTION TO TERMINATE  
PROCEEDING**

Pursuant to the authorization provided in the Board's email of July 25, 2025, Petitioner Innoscience America, Inc. moves to terminate the above-captioned proceeding, IPR2025-00721, directed to U.S. Patent No. 9,899,481 ("the '481 patent"). Counsel for Petitioner conferred with Patent Owner's counsel, and Patent Owner is unopposed to Petitioner's motion.

Good cause exists to terminate this proceeding because the proceeding is in its infancy with significant work still to be done, including the Board's Institution Decision and, to the extent that Institution is granted, the Patent Owner's Reply, possible motions to exclude, preparation for and participation in the oral argument, and the Board's preparation of the Final Written Decision. Terminating the proceeding now would thus serve the interests of judicial economy and the mutual interest of the parties.

Respectfully submitted,

Dated: July 25, 2025
