

PP bags

PP BAGS FOR READY-TO-USE SOLUTION

The proven and recognized chemical inertness of Inerta® PP bags enables ready-to-use solutions to be packaged in reliable, tried and tested containers.

Inerta® PP bags for ready-to-use solution are compliant with European and American pharmaceutical requirements. They meet client requirements in terms of the container-content interactions, as tested during the stability studies necessary for the marketing of molecules.

For more information, contact the [Technoflex Sales Department](#)

For an inquiry in the USA: usa.sales@technoflex.net

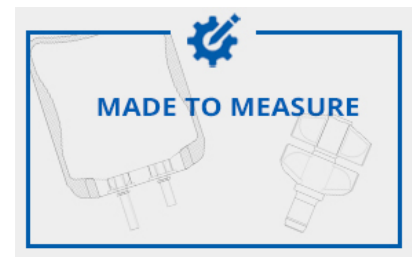

PROPERTIES

- Inerta® film*
- DMF n° 19057
- USP class 6 and ISO 10993 compliance
- No plasticisers (DEHP-free)
- Excellent chemical inertness
- Closed system
- Terminal sterilisation 125°C
