Welcome to movy.tv!

movy.tv is the worlds first web-interactive mobile multimedia enabling system, designed for Internet and global mobile use. It allows consumers, content creators and broadcasters to instantly upload and stream multimedia content through the Internet to mobile devices such as cell phones, Blackberry and PDA's. You can join movy.tv for free!

Please bear with us as we activate mobile & web based features and work to improve the system. We also need your help to test and improve movy.tv! If you have experiences or constructive suggestions, please email us at contact@movy.tv

System Status

- **Movy.tv** now supports Embedded Hardware 3gp players for cell phones: initially Sony Ericcson, Blackberry 8800 & Curve and Nokia, soon to be followed by LG, Samsung, other Korean phones and certain Motorola handsets. See [HOW-TO](#)
- New release for Movy.tv cell phone client for gsm and cdma handsets 06/05/2007 - See [HOW-TO](#)
- New version of the client for Blackberries 8100, 8700 and 8800 on June 5, 07. See [HOW-TO](#)
- **Why is movy.tv so drastically different?** See [INFO](#)
- **How do you use movy.tv?** See [HOW-TO](#)
