P.R. China

Dear Mr. Liu:

I am pleased to inform you that Pantech Corporation ("Pantech") is now offering licenses under its portfolio of patents (the "Pantech Patents") that cover wireless communication technology, such as LTE, and features frequently used in mobile handsets. The Pantech Patents were previously owned by Pantech Inc., an innovator in the mobile handset industry that spent significant amount of revenue on research and development. As you are likely aware, Pantech Inc. at one time was one of the major suppliers of mobile handsets worldwide.

Please take notice that Pantech has concluded that OnePlus Technology (Shenzhen) Co., Ltd. (collectively "OnePlus") utilizes and causes its customers and users to utilize the following patents: the U.S. Patent Nos. 7,006,037; 7,260,419; 7,283,839; 7,894,330; 7,925,242; 8,538,411; 8,611,297; 8,631,298; 8,649,346; 8,681,599; 8,873,519; 9,237,566; 9,288,824; 9,319,507 and 9,313,743. By way of non-limiting example, the OnePlus 6T, OnePlus 7, OnePlus 7 Pro, OnePlus 7T, OnePlus 7T Pro, OnePlus 8, and OnePlus 8 Pro use these patents and your relevant products include any other product that operates in a similar fashion. As such, OnePlus requires a license from Pantech to cover both its past and future utilization of our intellectual property.

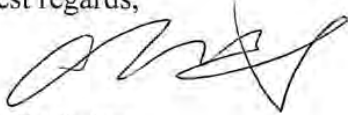

An exemplary listing of our patents is set forth in Exhibit A. In addition to the patents specifically identified above, Pantech expects that OnePlus may currently be using, or will in the future be using, additional patented inventions from this portfolio.

Our purpose is to make the Pantech Patents widely available through reasonable licensing arrangements. To that end, we would like to explore an amicable business resolution at your earliest convenience. We respectfully request that you acknowledge receipt of this letter via email to Mr. Pep Kim (pkim@pantech.com), who will be glad to assist you in discussing licensing terms and conditions, and may also reach out to you directly.

Thank you for your consideration.

Best regards,
