IPR2025-00808
USPN 11,938,201

Dear Honorable Board and Director,

The above-captioned IPR involves U.S. Patent No. 11,938,201, which is also currently the subject of PGR2025-00012. The petitions filed in the above-captioned IPR and PGR2025-00012 both challenge all of the same claims of the '201 patent. Given the pending decision on institution in PGR2025-00012, Patent Owner and Petitioner believe there is good cause to jointly request that the Director

and Board stay all deadlines in IPR2025-00808, pursuant to the following conditions:

1. If PGR2025-00012 is denied:
 - a. The due date in IPR2025-00808 for Patent Owner to file a brief pursuant to the Acting Director's Interim Processes for PTAB Workload Management would be deferred to August 29, 2025;
 - b. The due date in IPR2025-00808 for Petitioner's response pursuant to the Acting Director's Interim Processes for PTAB Workload Management brief would be deferred to September 29, 2025; and
 - c. The due date in IPR2025-00808 for Patent Owner's Preliminary Response would be deferred to September 29, 2025;
2. In the event that the Board institutes post-grant review in PGR2025-00012, all deadlines in IPR2025-00808 would remain stayed and within 5 business days of such institution, the Parties will jointly request that the Board terminate IPR2025-00808 without prejudice to Petitioner filing a petition concerning U.S. Patent No. 11,938,201 at a date subsequent to termination of PGR2025-00012, subject to all applicable laws and regulations.

Should the Director and the Board believe that the parties' request here should be made via a motion, Patent Owner and Petitioner request authorization to file such a joint motion.

If needed, Patent Owner and Petitioner can be available for a conference call at the following dates and times:

- Thursday, May 1, from 9 am – 2 pm
- Friday, May 2, from 9 am – 12:30 pm and 3:30-5 pm
- Monday, May 5, from 9 am – 10 am

Respectfully,
