

Product Patent

This page is intended to provide notice under 35 U.S.C. § 287(a) for the products and associated patents listed below. Additional patents may be marked on products or product packaging. Additional patents may be pending. Be advised that many of the products listed on this page further include patented components that are separately listed on this page. For each product, you should review the entry for the product and the entries for the components of that product. All Product Categories with "Amphenol" were transferred to Amphenol Corporation on January 31, 2025.
