Hi Hassan,

My apologies for the delay. I just spoke with Steve and hopefully I spelt everything correctly.

Steve would like for you to give a 30 minute presentation on buccal mucosa, the structure of it the path ways of permeation, the barrier's encountered and ways to enhance permeation.

Have a great weekend and we'll talk next week.

Warm Regards,

Ramona McCudden

Ramona,

That is correct. My family will stay in Tennessee till end of June if I move to New Jersey in January. If

you prefer I come in January/February, my start date will move to July. Because I am in academia, there are limited windows to exit (either in December or June). Let me know what you think is appropriate.

Hi Hassan,

Always nice to hear from you but last we spoke, you were not interested in moving forward and you signed a year lease. If I have you come in for an in person interview, I want to make sure you would committed to the process and the role. I respect my colleagues time.

Let me know if you want to jump on a call, I am in the office now. Please feel free to reach out.

Warm Regards,

Ramona McCudden

Hi Ramona,

I mentioned to Steve that I have to find a place to live by end of June as my apartment complex is going through new renovations. I have found a house to rent and have paid security deposit to move in by June 27. In light of this development, I would like to defer the interview till early 2017 if that is ok with you and Steve.

Thanks,  
Hassan.

Hi Hassan,

Do you have a day that you could travel to NJ for an in person interview. I thought the week of June 27<sup>th</sup> would work. Steve asked if you can do a presentation on Pathways and Barriers on Transmucosal Permeation. Let me know if that is ok.

Hi Dr. Almoazen,

My name is Ramona McCudden and I work in HR for a Pharmaceutical company called, "MonoSol Rx". We specialize in Drug Delivery, thin film.

I was wondering if you would have a few minutes to speak about openings we have for Entry Level Formulation Scientists?

Please let me know if you might have some time.

Warm Regards,

Ramona McCudden
