

Epinephrine in fast dissolving film

From Hassan Almoazen <halmoazen@ionopharma.com>

Date Tue 10/18/2016 11:02 AM

To Wargacki, Steve <SWargacki@monosolrx.com>

Hi Steve,

I believe I have a solution to increase the absorption of epinephrine from the oral cavity and I believe this solution can be patented. I have disclosed this solution in a provisional patent which my lawyer will file next week. Would your company be interested in a licensure agreement where we collaborate on the development of this delivery system? Let me know at your convenience.

Regards,
Hassan
