

Search Report on Patent Application No. 099123277

1. Application date: July 15, 2009								
2. Priority date: None								
3. International Patent Classification (IPC) number of this case: H01L21/336 (2006.01) , H01L21/28 (2006.01) H01L29/78 (2006.01)								
4. Search scope of International Patent Classification (IPC): H01L H01L21/00~21/98 (2006.01),H01L27/00~29/96 (2006.01)								
5. Search using database name (keyword): TIPO domestic and foreign patent databases, EPO, USPTO, JPO, GOOGLE SCHOLAR, China Patent Information Database

Description of the correlation code: <table border="0"> <tr> <td>X: Citation alone is sufficient to negate the novelty of the invention Literature particularly relevant to sexuality or progressiveness.</td> <td>A: References of general technical level.</td> <td>O: Public use, sale or exhibition document.</td> </tr> <tr> <td>Y: Sufficient to combine with one or more other documents Particularly relevant for denying the progressiveness of an invention literature.</td> <td>D: Documents already recorded in the instructions. E: Patent documents that were applied for first but published/announced later.</td> <td>P: Documents published between the application date and the priority date offer. L: Literature cited for other reasons.</td> </tr> </table>			X: Citation alone is sufficient to negate the novelty of the invention Literature particularly relevant to sexuality or progressiveness.	A: References of general technical level.	O: Public use, sale or exhibition document.	Y: Sufficient to combine with one or more other documents Particularly relevant for denying the progressiveness of an invention literature.	D: Documents already recorded in the instructions. E: Patent documents that were applied for first but published/announced later.	P: Documents published between the application date and the priority date offer. L: Literature cited for other reasons.
X: Citation alone is sufficient to negate the novelty of the invention Literature particularly relevant to sexuality or progressiveness.	A: References of general technical level.	O: Public use, sale or exhibition document.						
Y: Sufficient to combine with one or more other documents Particularly relevant for denying the progressiveness of an invention literature.	D: Documents already recorded in the instructions. E: Patent documents that were applied for first but published/announced later.	P: Documents published between the application date and the priority date offer. L: Literature cited for other reasons.						

Completion date: April 10, 2016
