U.S. PATENT 8,995,372

---

**PETITIONER'S UPDATED EXHIBIT LIST**

Pursuant to 37 C.F.R. § 42.63 (e), Petitioner hereby submits a current listing of its exhibits to counsel for Patent Owner. Exhibit 1020 was filed today on P-TACTS and served via email to Patent Owner's counsel of record.

| Exhibit | Description                                                                                                                                                                                   |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EX1001  | U.S. Patent No. 8,995,372 to Kwon <i>et al.</i> ("the '372 Patent")                                                                                                                           |
| EX1002  | Prosecution History of U.S. Patent No. 8,995,372 ("File History")                                                                                                                             |
| EX1003  | Declaration of Dr. Robert Akl ("Akl Decl.")                                                                                                                                                   |
| EX1004  | U.S. Patent Application Publication No. 2011/0158116 in the name of Tenny <i>et al.</i> ("Tenny '116")                                                                                        |
| EX1005  | U.S. Provisional Application No. 61/218,769 in the name of Tenny <i>et al.</i> ("Tenny-Prov")                                                                                                 |
| EX1006  | "R2-100110, Multiple Timing Advance Impact on RAN2, Huawei (3GPP TSG-RAN WG2 Meeting #68bis)," Valencia, SP, Jan 18–22, 2010 ("Huawei")                                                       |
| EX1007  | U.S. Patent Application Publication No. 2010/0303039 in the name of Zhang <i>et al.</i> ("Zhang")                                                                                             |
| EX1008  | U.S. Patent No. 9,426,765 in the name of Wang <i>et al.</i> ("Wang '765")                                                                                                                     |
| EX1009  | U.S. Provisional Application No. 61/293,871 in the name of Wang <i>et al.</i> ("Wang-Prov")                                                                                                   |
| EX1010  | "R2-100372, RACH and carrier aggregation, Nokia (3GPP TSG-RAN WG2 Meeting #68bis)," Valencia, SP, Jan 18–22, 2010 ("Nokia")                                                                   |
| EX1011  | Declaration of Friedhelm Rodermund ("Rodermund Decl.")                                                                                                                                        |
| EX1012  | Joint Claim Construction and Prehearing Statement (Dkt. 49) of <i>Pantech Corporation et al. v. Oneplus Technology (Shenzhen) Co., Ltd.</i> , 5:24-cv-00038-RWS-JBB (E.D. Tex. Mar. 26, 2025) |
| EX1013  | First Amended Docket Control Order (Dkt. 47) of <i>Pantech Corporation et al. v. Oneplus Technology (Shenzhen) Co., Ltd.</i> , 5:24-cv-00038-RWS-JBB (E.D. Tex. Mar. 12, 2025)                |
| EX1014  | Machine Translation of KR20110108536A (Publication of KR Appl. No. 10-2010-0027782) by Google Patents                                                                                         |
| EX1015  | "R2-100054, Primary Component Carrier, Nokia (3GPP TSG-RAN WG2 Meeting #68bis)," Valencia, SP, Jan 18–22, 2010                                                                                |
| EX1016  | "3rd Generation Partnership Project; Technical Specification Group Radio Access Network; Evolved Universal Terrestrial Radio Access                                                           |

| Exhibit | Description                                                                                                                                                                                                                                                                                                  |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | (E-UTRA) Medium Access Control (MAC) Protocol Specification (Release 8),” 3GPP TS 36.321 V8.8.0 (2009-12) (“TS36321-V880”)                                                                                                                                                                                   |
| EX1017  | “3rd Generation Partnership Project; Technical Specification Group Radio Access Network; Evolved Universal Terrestrial Radio Access (E-UTRA) and Evolved Universal Terrestrial Radio Access Network (E-UTRAN); Overall Description; Stage 2 (Release 9),” 3GPP TS 36.300 V9.2.0 (2009-12) (“TS36300-V920”)   |
| EX1018  | E. Dahlman <i>et al.</i> , “3G Evolution: HSPA and LTE for Mobile Broadband,” 1st ed. Elsevier, 2007 (“Dahlman”)                                                                                                                                                                                             |
| EX1019  | “3rd Generation Partnership Project; Technical Specification Group Radio Access Network; Evolved Universal Terrestrial Radio Access (E-UTRA) and Evolved Universal Terrestrial Radio Access Network (E-UTRAN); Overall Description; Stage 2 (Release 10),” 3GPP TS 36.300 V10.0.0 (2010-06) (“TS36300-Va00”) |
| EX1020  | Correspondence with Patent Owner dated May 28, 2025                                                                                                                                                                                                                                                          |
