Script M-files

For simple problems, entering your requests at the MATLAB prompt in the *Command* window is fast and efficient. However, as the number of commands increases or in the case when you wish to change the value of one or more variables and reevaluate a number of commands, typing at the MATLAB prompt quickly becomes tedious. MATLAB provides a logical solution to this problem. It allows you to place MATLAB commands in a simple text file and then tell MATLAB to open the file and evaluate commands exactly as it would if you had typed them at the MATLAB prompt. These files are called *script files* or simply *M-files*. The term “script” symbolizes the fact that MATLAB simply reads from the script found in the file. The term “M-file” recognizes the fact that script file names must end with the extension `'.m'` (e.g., `example1.m`).

To create a script M-file on a Macintosh or PC, choose **New** from the **File** menu and select **M-file**. This procedure brings up a text editor window where you enter MATLAB commands. On workstation platforms, it is common to open another *terminal* window and run your favorite text editor for creating and modifying M-files in that window. The following script M-file shows the commands from an example considered earlier.

Mastering MATLAB[®] 5

DUANE HANSELMAN BRUCE LITTLEFIELD

1. GETTING STARTED
 2. BASIC FEATURES
 3. THE COMMAND WINDOW
 4. SCRIPT M-FILES
 5. FILE AND DIRECTORY MANAGEMENT
 6. ARRAYS AND ARRAY OPERATIONS
 7. MULTIDIMENSIONAL ARRAYS
 8. RELATIONAL AND LOGICAL OPERATIONS
 9. SET, BIT, AND BASE FUNCTIONS
 10. CHARACTER STRINGS
 11. TIME FUNCTIONS
 12. CELL ARRAYS AND STRUCTURES
 13. CONTROL FLOW
 14. FUNCTION M-FILES
 15. DEBUGGING AND PROFILING TOOLS
 16. NUMERICAL LINEAR ALGEBRA
 17. DATA ANALYSIS
 18. POLYNOMIALS
 19. INTERPOLATION
 20. CUBIC SPLINES
 21. FOURIER ANALYSIS
 22. OPTIMIZATION
 23. INTEGRATION AND DIFFERENTIATION
 24. ORDINARY DIFFERENTIAL EQUATIONS
 25. OBJECT-ORIENTED PROGRAMMING
 26. 2-D GRAPHICS
 27. 3-D GRAPHICS
 28. USING COLOR AND LIGHT
 29. IMAGES, MOVIES, AND SOUND
 30. PRINTING AND EXPORTING GRAPHICS
 31. HANDLE GRAPHICS
 32. GRAPHICAL USER INTERFACES
 33. DIALOG BOXES AND REQUESTERS
 34. HELP
 35. INTERNET RESOURCES
 36. THE MASTERING MATLAB TOOLBOX
- APPENDICES
- App. A MATLAB Function Listing
- App. B Axes Object Properties
- App. C Figure Object Properties
- App. D Image Object Properties
- App. E Light Object Properties
- App. F Line Object Properties
- App. G Patch Object Properties
- App. H Root Object Properties
- App. I Surface Object Properties
- App. J Text Object Properties
- App. K Uicontrol Object Properties
- App. L Uimenu Object Properties
- INDEX
