

Richard K. Brow Curators' Distinguished Professor, Materials Science & Engineering, Missouri
University of Science & Technology
Email: brow@mst.edu; Phone: (573) 341-6812

Education

<u>Institution and Location</u>	<u>Degree</u>	<u>Date Conferred</u>	<u>Field of Study</u>
NYS College of Ceramics, Alfred University, Alfred, NY	B.S.	1980	Ceramic Engineering,
NYS College of Ceramics, Alfred University, Alfred, NY	M.S.	1982	Glass Science
Pennsylvania State University, University Park, PA	Ph.D.	1985	Ceramic Science

Professional Experience

1998-present: **Missouri University of Science and Technology**, Rolla, MO

- Curators' Distinguished Professor of Ceramic Engineering (1/05-present)
- Senior Investigator, Graduate Center for Materials Research (1/98-present)
- Research Investigator (1/08-present), Interim Director (7/18-6/19), Director (7/19-8/21), Center for Biomedical Research
- Executive Director of Operations, Kummer Institute (3/1/24-present)
- Special Assistant to the Provost for Academics (9/1/22-8/31/23)
- Interim Deputy Provost for Academic Excellence (7/1/19-8/31/22)
- Interim Vice Provost & Dean of the College of Engineering and Computing (7/1/16-7/31/17)
- Founding Department Chair, Materials Science & Engineering (7/04-12/06); Interim MSE Chair (11/15-3/16)
- Department Chair, Ceramic Engineering (1/01-6/04)

1985-1998: **Sandia National Laboratories**, Albuquerque, NM; Professional Member of the Technical Staff in the Ceramics Development Division.

1990-1996: **University of New Mexico**, Albuquerque, NM, Adjunct Professor, Chemical & Nuclear Engineering

Awards and Honors

- 2025: Named Fellow of the *National Academy of Inventors*; public announcement December 10, 2024; induction at the 14th NAI Annual Conference, June 23-26, 2025, Atlanta, GA.
- 2021: Elected to the *World Academy of Ceramics*, for "international renown significant contribution to the advancement of ceramics culture, science and technology", awarded at CIMTEC 2022, Montecatini Terme, Italy, June 21, 2022.
- 2021: Coulter Biomedical Accelerator award for Local, *Structural Scaffold to Stabilize Limb Muscle in Muscular Dystrophy*, University of Missouri School of Medicine; with Drs. Aaron Morton and Steve Segal.
- 2020: *Distinguished Life Membership*, the American Ceramic Society. The DLM Award is the highest honor accorded to members of ACerS and recognizes eminent contribution to the ceramic and glass profession.
- 2019: American Ceramic Society, Education and Professional Development Council's *Outstanding Educator Award* for 2019, to recognize truly outstanding work and creativity in teaching, in directing student research, and in the general education process of ceramic educators; ACerS Annual Meeting, Portland, OR, Sept. 30, 2019.
- 2016: *N.F. Mott Award*, the senior scientist award for outstanding contributions to the science of non-crystalline solids over many years, from the *Journal of Non-Crystalline Solids*
- 2010: *Presidential Award for Research and Creativity*, University of Missouri
- 2009: *Scholes Lecture* for "significant contributions to the field of glass science," Alfred University
- 2008: *American Competitiveness Initiative Fellowship*, National Science Foundation, for "his transformational research on glasses and his steady contribution to the mentoring and training of young women in materials science and engineering at both the undergraduate and graduate level."

- 2005 Greaves-Walker Roll of Honor Award, Keramos-National Institute of Ceramic Engineers, in appreciation of work as a mentor, scholar, and teacher.”
- 2005: Named ‘Curators’ Professor of Ceramic Engineering; this is the highest professorial rank in the University of Missouri system.
- 2005: Named Fellow of the Society of Glass Technology
- 2004: George W. Morey Award for ‘new and original work in the field of glass science and technology’; from the Glass & Optical Materials Division of the American Ceramic Society.
- 1997: Named Fellow of the American Ceramic Society
- 1996: First American recipient of the Gottardi Prize from the International Commission on Glass, for ‘outstanding contributions to the field of glass science’.
- 1996: R&D 100 Award from R&D Magazine for the development of hermetic sealing glasses for aluminum components, one of the ‘100 most technologically significant new products of the year’.
- 1994: Karl Schwartzwalder Professional Achievement in Ceramic Engineering Award from the American Ceramic Society, awarded annually to ‘the nation’s outstanding young ceramic engineer’.

Research Interests

Richard Brow and his students at Missouri S&T study the composition-structure-property relationships of oxide glasses and the use of glasses and related materials for a variety of engineering applications, including their use in electronic, optical, mechanical, chemical, and biomedical devices. His research has been funded by a variety of federal agencies, including the National Science Foundation, the National Institutes of Health, the Department of Energy, and the DOE National Labs, as well as industry. At Sandia, Prof. Brow was responsible for developing materials and processes for a variety of components used in command-and-control systems. He continues to consult with colleagues at Sandia, Los Alamos, and the Kansas City National Security Campus, on glass-related issues. He holds seventeen US patents, and four international patents, for materials used to make hermetic seals in electronic components and for biomedical materials, among other applications.

United States Patents

17. Dennis J. Eichorst, Tieshu Huang, Kaley M. McLain, and Richard K. Brow, "Electrical connectors including glass seals and methods of fabrication," patent issued February 20, 2024, **USP 11,909,157 B2**.
16. Rachel L. Grodsky, Richard K. Brow, and Melissa Malone Teague, "Fluorescent Security Glass," patent issued January 16, 2024, **USP 11,875,499 B2**.
15. Chang-Soo Kim, Richard K. Brow, and Delbert E. Day, "Inorganic biodegradable substrates for devices and systems," patent issued May 25, 2021, **USP 11,013,836**.
14. C.W. Kim and R.K. Brow. "Viscous sealing glass compositions for solid oxide fuel cells," patent issued December 27, 2016, **USP 9,530,991**
13. R. K. Brow, S. T. Reis, M. Koenigstein and G. Chen, "Corrosion-resistant glasses for steel enamels," patent issued March 25, 2014, **USP 8,679,389**.
12. R. K. Brow, S. T. Reis, M. Koenigstein and G. Chen, "Corrosion-resistant glasses for steel enamels," patent issued March 8, 2011, **USP 7,901,769 B2**.
11. R. K. Brow, S.T. Reis, M. Velez, D.E. Day, "Alkaline resistant phosphate glasses and method of preparation and use thereof," patent issued January 26, 2010, **USP 7,651,966**
10. R.K. Brow, S.T. Reis, G. Benson, "Glass and glass-ceramic sealant compositions," patent issued July 15, 2008, **USP 7,399,720**
9. R. D. Kilgo, L. Kovacic, and R. K. Brow, "Hermetic aluminum radio frequency interconnection and method for making," patent issued Mar. 14, 2000, **USP 6,037,539**.
8. R. D. Kilgo, R. K. Brow, and L. Kovacic, "High thermal expansion sealing glass for use in radio frequency applications," patent issued Oct. 12, 1999, **USP 5,965,469**.
7. R. K. Brow, H. L. McCollister, C. C. Phifer, and D. E. Day, "Titanium Sealing Glasses and Seals Formed Therefrom," patent issued Dec. 2, 1997, **USP 5,693,580**.
6. R. K. Brow, H. L. McCollister, C. C. Phifer, and D. E. Day, "Improved Glasses for Low Temperature Hermetic Seals to Titanium," patent issued Jul. 15, 1997: **USP 5,648,302**.
5. R. K. Brow and L. Kovacic, "New Corrosion Resistant, High Thermal Expansion Sealing Glasses," patent issued November 16, 1993: **USP 5,262,364**.
4. R. K. Brow and R. D. Watkins, "Sealing Glasses for Titanium and Titanium Alloys," patent issued April 14, 1992: **USP 5,104,738**.

3. D. E. Day and R. K. Brow, "A Technique for Improving the Properties of Phosphate Glass-to-Metal Seals," patent issued September 3, 1991: **USP 5,045,508**.
2. R. K. Brow and R. D. Watkins, "High Expansion Li Corrosion Resistant Sealing Glasses," patent issued June 4, 1991: **USP 5,021,307**
1. R. K. Brow and R. D. Watkins, "High Expansion Li Corrosion Resistant Sealing Glasses," patent issued May 14, 1991: **USP 5,015,530**.

International Patents

1. C.W. Kim and R.K. Brow. "Viscous sealing glass compositions for solid oxide fuel cells," Japanese Patent 6,328,111, Issued April 27, 2018.
2. C.W. Kim and R.K. Brow. "Viscous sealing glass compositions for solid oxide fuel cells," Korean Patent Application (Analog of USP 9.530,991); application allowed 17 April 2019.
3. C.W. Kim and R.K. Brow. "Viscous sealing glass compositions for solid oxide fuel cells," Indian Patent 338989, Issued June 22, 2020.
4. C.W. Kim and R.K. Brow. "Viscous sealing glass compositions for solid oxide fuel cells," European Patent 2875537, Issued September 1, 2021.

Provisional Patents and Patent Applications

1. Rachel Leigh Grodsky, Richard Brow, and Melissa Malone Teague, "Fluorescent security glass," US Patent Application, US 2024/0135520 A1, April 25, 2024; continuation of Pat. No. 11,875,499.
2. Krishna Kolan, Julie A. Semon, and Richard K. Brow, "Functional Hydrogel Bio-Ink Modified by pH-Neutral Bioactive Glass," Missouri S&T Invention Disclosure, submitted 16 July 2020; Missouri S&T reference number 21MST001; United States Provisional Patent Application Serial No. 63/452,904, filed on March 17, 2023; Patent application publication US 2024/0307587 A1, published September 19, 2024.
3. CW Kim, RK Brow, and JH Hsu, Methods of Use and Manufacture of Silver-Doped, Nano-Porous Hydroxyapatite, US Provisional Patent filed 25 January 2018 by MoSci; application number 62/621,910; Missouri S&T reference number 19MST024; information disclosure statement filed 25 January 2019 US application 16/257,514; US Divisional Application No.: 17/857,388 filed 5 July 2022; US Patent Application Publication, US 2022/0401913 A1, December 22, 2022.
4. Aaron B. Morton, Richard K. Brow, Steven S. Segal, and Julie A. Semon, "Bioactive Glass Compositions and Methods of Treatment," University of Missouri Invention Disclosure 20UMC039, filed January 31, 2020; Provisional Patent Application No. 63/260,858 filed September 2, 2021; US Patent Application PCT/US2022/042374, filed Sept. 1, 2022; Provisional to Utility patent filed March, 1, 2024; National Phase Applications entered, 4/18/2014; Canada Application: 3,230,616, Europe Application: 22865569.2, Japan Application: 2024-514080, Korea Application: 10-2024-7010464; Publication Application Publication Number 20250064848, Feb. 27, 2025.

Intellectual Property Disclosures

1. Rachel L. Grodsky, Noah Weyrauch, and Richard K. Brow, "CTE Mismatched Glass Fibers," Honeywell Invention Disclosure P-KC2090, submitted 12/14/2023; "Fused Materials with Mismatched Thermal Properties," Invention Assignment Document, signed December 11, 2024 (Erise IP P.A. Patents).
2. John M. Lawler, Aaron B. Morton, and Richard K. Brow, "Biocompatible Ceramics to Enhance Tendon and Ligament Regeneration," Texas A&M Technology Commercialization Disclosure of Invention, March 2, 2023; 23MST033, submitted May 26, 2023.
3. Edward Kinzel, Robert Landers, Luis Deutsch Garcia, Richard Brow, Douglas Ashley Bristow, and Todd Sparks, "Fast Additive Manufacturing of Glass using Volumetric Laser Heating of Engineered Filaments," University of Notre Dame Draft Disclosure D-0512, May 10, 2023.
4. Aaron B. Morton, Richard K. Brow, and Christopher R. Woodman, "Biocompatible Ceramics as Stent Coatings to Resist Calcification," Texas A&M Technology Commercialization Disclosure of Invention, March 10, 2023; 23MST024, submitted March 22, 2023.

5. Richard K. Brow, Parker Freudenberger, and Julie A. Semon, "Bioactive glasses that control local pH," Missouri S&T Invention Disclosure filed February 5, 2019; Missouri S&T reference number 19MST027.
6. Richard K. Brow and Youqu Shen, "Biphasic calcium phosphate hollow microspheres for biomedical applications," Missouri S&T Invention Disclosure filed June 6, 2018; Missouri S&T reference number 18MST049.
7. Lance E. Carroll, Dennis J Eichorst, and Richard K. Brow, "Glass-ceramic for adhesion to Pd-Ag alloys," Honeywell FM&T Invention Disclosure P-KC1290, Sept. 28, 2017. (Copper-doped S-glass on Paliney.)

Invited Presentations (since 1998)

104. R.K. Brow, "Structure and Properties of Phosphate Glasses," invited lecture for MSE 524 a graduate class in Glass Science & Technology, Washington State University, Feb. 5, 2025.
103. RK Brow and CW Kim, "Iron Phosphate Glasses for Waste Immobilization," *Symposium on Ceramic Materials for Nuclear Energy Systems*, MS&T 2024, Pittsburgh, PA, Oct. 6-9, 2024
102. R.K. Brow, "Sailing the Glass SEA: Using Science, Engineering and Art to Prepare Students for Careers in Glass," 85th Annual Glass Problems Conference, Toledo, OH, Sept. 17, 2024.
101. R.K. Brow, "Reflections on the Structures of Phosphate Glasses," Plenary Lecture, All-Iowa Glass Conference, Cedar Rapids, IA, August 1, 2024.
100. R.K. Brow and S. Jung, "Delbert Day and the Development of Glasses for Biomedical Applications," GOMD Annual Meeting, Las Vegas, NV, May 2024.
99. R.K. Brow, RL Blatt, and RE Youngman, "Dissolution and Precipitation Reactions of Na-Ca-Borophosphate Glasses in Simulated Body Fluid," GOMD Annual Meeting, Las Vegas, NV, May 2024.
98. R.K. Brow, "Chuck Kurkjian, Two-Point Bending, and the Failure Characteristics of Silicate Glasses," GOMD Annual Meeting, New Orleans, LA, June 5, 2023.
97. R.K. Brow, N.S. Roberts, P.E. Porter, and J.V. Crum, "Microstructural Development and Chemical Durability of a Borosilicate Glass-Ceramic Waste-Form," *Symposium on Progressive Solutions to Improve Corrosion Resistance for Nuclear Waste Storage Materials*, MS&T 2022, Pittsburgh, PA, October 9-13, 2022.
96. R.K. Brow, "Introduction to Structural Studies of Glasses," International Year of Glass Graduate Seminar (Zoom Lecture), September 8, 2022.
95. R.K. Brow, "Glasses for Biomedical Applications," International Year of Glass Speaker Series, Coe College, August 30, 2022.
94. R.K. Brow, R. Blatt, P. Freudenberger, and R. Youngman, "Dissolution Behavior of Na-Ca-Borophosphate Bioactive Glasses," 26th International Congress on Glass, Berlin, Germany, July 3-8, 2022.
93. R.K. Brow, "Perspectives on Ceramic Engineering," Workshop on Ceramic Engineering Education, Colorado School of Mines, Golden, CO, June 14, 2022.
92. Richard Brow and Steven Jung, "From University Research to Clinical Use- A Biomedical Glass Story," National Day of Glass Celebration, Washington, DC, April 5-7, 2022.
91. R.K. Brow, "Borate and Borophosphate Glasses for Biomedical Applications," *Frontiers in Glass II*, a virtual workshop, Bristol Univ., UK, June 30, 2021.
90. R.K. Brow, "Borophosphate Glasses," Department of Chemistry Seminar, Dalhousie Univ., Halifax, NS, Canada, Mar. 6, 2020.
89. R.K. Brow, P. Freudenberger, R. Blatt, J.A. Semon, "Borophosphate Glasses for Biomedical Applications," MS&T19, Portland, OR, Oct. 3, 2019.
88. R.K. Brow, "Designing Glass Structures for Engineering Applications," Symposium on Structure-Property Relations in Non-Crystalline Materials, MRS Fall Meeting, Boston, MA, Nov 25-30, 2018.
87. R.K. Brow, Q. Wang, and H. Li, "Two-point bend studies of the failure characteristics of glass fibers," 2018 International Commission on Glass Annual meeting, Yokohama, Japan, 26 September 2018.
86. R.K. Brow, "Structure and the Dissolution Characteristics of Phosphate Glasses," Materials Science Seminar, The University of Shiga Prefecture, Shiga, Japan, 21 September 2018.

85. R.K. Brow, "Dissolution Studies of Specialty Glasses for Biomedical Applications and Nuclear Waste (But Not at the Same Time)", Tutorial Lecture at the 20th University Conference on Glass, Penn State University, August 13-17, 2018.
84. P. Freudenberger and R.K. Brow, "Borophosphate Glasses for Biomedical Applications," 7th International Congress on Ceramics, Symposium on the Frontiers of Glass Science," Iguaçu Falls, Brazil, June 17-21, 2018
83. R.K. Brow, "Spectroscopic Studies of Borate and Phosphate Glasses: The Effects of Structure on Aqueous Durability," MS&T17, Pittsburgh, PA, Oct. 8-12, 2017
82. R.K. Brow, "Dissolution Studies of Specialty Glasses," Seminar for the School of Materials Science and Engineering, College of Engineering, Architecture & Technology, Oklahoma State University, Tulsa, OK, Sept. 14, 2017
81. R.K. Brow, "Dissolution and Precipitation Reactions of Borate Glasses for Biomedical Applications," Colorado Center for Advanced Ceramics (CCAC) Student Conference, Golden, CO, Aug. 17-18, 2017.
80. R.K. Brow, E. Ronchetto, and Z. Tang, "Two-point Bend Studies of Silicate Glass Strength and Fatigue", MS&T16, Salt Lake City, UT, Oct. 27, 2016
79. R.K. Brow, "Dissolution Characteristics of Specialty Glasses," International Advanced Glass Material Forum," Fuzhou University, Fuzhou, Fujian, China, April 14, 2016.
78. R.K. Brow, "Peering into glass: techniques to analyze glass structure," Materials Science and Engineering Department, Tongji University, Shanghai, China, April 12, 2016.
77. R.K. Brow, Q. Wang, and H. Li, "Two-point bend studies of the failure characteristics of E-glass fibers," 24th International Congress on Glass, Shanghai, China, April 8, 2016.
76. R.K. Brow, L. Ma, and C.E. Smith, "Structure and the Dissolution Characteristics of Phosphate Glasses," 11th PacRim Meeting of Ceramic Societies, ICC Jeju, Jeju, Korea, Aug. 30-Sept. 4, 2015.
75. R.K. Brow, "Specialty Glass Research," Nippon Electric Glass Research and Development Seminar, Kyoto, Japan, August 7, 2015.
74. R.K. Brow, "Sealing Glasses for Solid Oxide Fuel Cells and Related Devices," 1st Workshop on Advanced Glasses with New Functionalities, Ehime University, Ehime Prefecture, Japan, August 5, 2015.
73. R.K. Brow, "Borate Glasses for Biomedical Applications," 47th Annual Meeting of Young Glass Researchers, Glass Division of the Ceramic Society of Japan, Matsuyama, Ehime University, Ehime Prefecture, Japan, August 5, 2015.
72. R.K. Brow, "Design and Applications of Specialty Sealing Glasses," International Materials Institute- New Functionalities for Glass On-Line Course on Glass Processing, April 9, 2015.
71. R.K. Brow, J. George, and K. Goetschius, "Dissolution and Conversion to Hydroxyapatite of Bioactive Borate Glasses," DGG-GOMD Annual Meeting, Miami, FL, May 17-21, 2015.
70. R.K. Brow, "Sealing Glasses," IMI-NFG Online Cooperative Course on Glass Processing, April 16, 2015.
69. R.K. Brow, "Bio-glasses and glass-ceramics: current trends and future directions," 10th Brazilian Symposium on Glass and Related Materials, Sao Carlos, SP, Brazil, 26-30 October 2014
68. R.K. Brow, "Reflections from a Glass Guy," Keramos Career Speaker, Keramos Convocation, MS&T'14, Pittsburgh, PA, October 12, 2014.
67. R.K. Brow, "Iron phosphate glasses as alternative hosts for radioactive wastes," Institut de minéralogie, de physique des matériaux et de cosmochimie, Université Pierre et Marie Curie, Paris, France, September 30, 2014
66. R.K. Brow, "Sealing glasses for electrochemical devices," DGG-GOMD Annual Meeting, Aachen, Germany, May 25-29, 2014.
65. R.K. Brow, H. Shi, J. George, Q. Yang, and S. Chen, "Dissolution-Precipitation Behavior of Borate Bioglasses and its Effect on Cellular Activity," DGG-GOMD Annual Meeting, Aachen, Germany, May 25-29, 2014.
64. R.K. Brow, "Designing Glasses for Engineering Applications," Materials Science & Engineering Seminar, Tongji University, Shanghai, China, April 18, 2014.
63. R.K. Brow, "Specialty Glass Research," Materials Science & Engineering Seminar, Donghua University, Shanghai, China, April 17, 2014.
62. R.K. Brow, "Specialty Glass Research," Shanghai Institute of Optical Materials and Fine Mechanics, Shanghai, China, April 16, 2014.

61. R.K. Brow, "A New Role for the American Ceramic Society: Educating Engineers- Before and After that First Job," Ceramic Leadership Summit, Baltimore, MD, April 6-9, 2014
60. R.K. Brow, "Oxynitride Glasses: From SiALONs to Bio-materials," 8th International Symposium on Advanced Processing and Manufacturing Technologies for Structural and Multifunctional Materials and Systems (APMT8) in honor of Professor Stuart Hampshire, ICACC, Daytona Beach, FL, Jan. 26-31, 2014.
59. R.K. Brow, M.E. Schlesinger, and E.D. Zanotto, "Iron Phosphate Glasses and Melts- A US-Brazil Research Collaboration on Novel Materials for Nuclear Waste Remediation," *Engineering Ceramics Summit of Americas*, ICACC, Daytona Beach, FL, Jan. 27-Feb 1, 2013.
58. R.K. Brow, "Sealing Glasses for Electrochemical Devices," International Interactive Conference on Functional Glasses, Properties and Applications for Energy & Information, Siracusa, Sicily, Italy, Jan. 6-11, 2013.
57. R.K. Brow, "Dissolution Studies of Borate Glasses," Plenary Lecture for the 2012 Meeting of the Danish Ceramic Society, Aarborg, Denmark, Dec. 6-7, 2012.
56. R.K. Brow, "Corrosion of Specialty Glasses," Åbo Akademi Process Chemistry Centre (PCC) Distinguished Lecture, Åbo Akademi, Turku, Finland, Dec. 4, 2012.
55. R.K. Brow, "Phosphate glasses and the effects of short-, intermediate- and long-range order on properties," MRS Fall Symposium NN, Structure-Property Relations in Amorphous Solids, Boston, MA, Nov. 2012.
54. R.K. Brow, "Does Ceramic Engineering Really Matter?," Plenary Talk, 18th Annual New England Technical Ceramics Expo, Marlboro, MA, Oct. 17, 2012,
53. R.K. Brow, "Phosphate glasses for energy applications," International Workshop on Phosphate-based Materials for Energy Storage, Environment, and Biological Applications: Better Phosphates for a Better World, El Jadida, Morocco, Sept. 19-22, 2012.
52. R.K. Brow, "Structure, properties and applications of phosphate glasses," ETH Zurich, MSE Department, Zurich, Switzerland, Feb. 20, 2012.
51. R.K. Brow, "Aqueous corrosion reactions of borate glasses," Borate2011, Seventh International Conference on Borate Glasses, Crystals and Melts, Halifax, Nova Scotia, Canada, August 2011.
50. R.K. Brow, "Energy and Environmental Opportunities for Glass," (Plenary Lecture), University Conference on Glass Science, RPI, August 2-5, 2011.
49. R.K. Brow, "Chemical Durability of Specialty Glasses," Workshop on Optical Glasses, National United University, Miaoli, Taiwan, June 10, 2011.
48. RK Brow, "The intrinsic strength of glass," Flow and Fracture of Advanced Glasses (FFAG-5), St. Malo, Brittany, France, March 20-25, 2011.
47. R.K. Brow, "Structural chemistry and the properties of low-temperature glasses," Cooper Memorial Symposium, MS&T10, Houston, TX, October 17-21, 2010.
46. R.K. Brow, J.W. Lim and S.W. Yung, "Structure and properties of low temperature phosphate optical glasses," *NCM11*, Paris, France, June 27-July 2, 2010.
45. R.K. Brow, "Designing Phosphate Glasses for Optical and Other Applications," Materials Science & Engineering Seminar, Fuzhou University, Fuzhou, China, January 18, 2010.
44. R.K. Brow, "Recent glass research activities at Missouri S&T," Materials Science & Engineering Seminar, Tongji University, Shanghai, China, January 15, 2010.
43. R.K. Brow, "Mechanical properties and the structure of inorganic glasses," International Symposium on Functional Glasses, Zhejiang University, Hangzhou, China, Jan. 4-15, 2010.
42. R.K. Brow, "Glass in 2020: Opportunities in Research and Technology," Twelfth International Conference on the Physics of Non-Crystalline Solids, Foz do Iguacu, Brazil, Sept. 6-10, 2009.
41. R.K. Brow, "Designing Phosphate Glasses for Optical and Other Applications," Workshop on Optical Glasses, National United University, Miaoli, Taiwan, June 17, 2009.
40. R.K. Brow* and D.E. Day, "Phosphate Glasses as Alternative Hosts for Radioactive Wastes," 8th Pacific Rim Meeting of the American Ceramic Society and the Annual Meeting of the International Commission on Glass, Vancouver, BC, Canada, May 31-June 5, 2009.
39. R.K. Brow, "Structure and Properties of Oxide Glasses; Lectures on Structure by X-ray Techniques and Transport Properties of Glass," Workshop for New Researchers in Glass Science and Technology, Montpellier, France, May 4-5, 2009.
38. R.K. Brow, "Random Lessons from Glass Science," 2009 Scholes Lecture, Alfred University, April 16, 2009.

37. R.K. Brow, "Introduction to Glass-Ceramic Materials," Saint-Gobain TechDays, *Saint-Gobain Recherche*, Aubervilliers, France, Sept. 4, 2008
36. R.K. Brow, "Glass Technology in 2020: Glass Solutions to Energy and Environmental Problems," European Workshop on "Advanced Materials and Innovative Melting Technologies in the Year 2020," Brig, Switzerland, March 26-29, 2008.
35. R.K. Brow, "Glass Research at UMR," Tongji University Materials Forum, Shanghai, China, Nov. 15, 2007
34. R.K. Brow*, N.P. Wyckoff, and U. Hoppe, "Binary rare-earth phosphate glasses," 7th Pacific Rim Conference on Ceramic and Glass Technology (PacRim7), Shanghai, China, November 11-14, 2007
33. R.K. Brow, "Failure studies of pristine glass fibers," Materials Science & Engineering Seminar, The Ohio State University, February 16, 2007.
32. R.K. Brow, "Failure Studies of Glass," Owens-Illinois Lecture Series, Perrysburg, OH, February 15, 2007.
31. Richard K. Brow* and Brad C. Tischendorf, "Surface Chemistry of Phosphate Glasses," Eighth International Otto Schott Colloquium, Friedrich-Schiller University, Jena, Germany, July 23-27, 2006.
30. R. K. Brow*, "Looking at glass rather than through it," Art Institute of Chicago/Northwestern University Seminar Series on Conservation Science, Ceramic and Glasses: New methods for Old Problems, Northwestern University, May 30, 2006.
29. Richard K. Brow, "Structure and properties of phosphate glasses," UMR Chemistry Department Graduate Seminar, February 20, 2006.
28. R.K. Brow and N.P. Lower, "Failure strain studies of glass fibers," Third International Workshop on the Flow and Fracture of Advanced Glasses, Pennsylvania State University from October 2–5, 2005.
27. R.K. Brow, "Sealing Glasses for Solid Oxide Fuel Cells," 17th University Conference on Glass Science and 1st International Materials Institute Workshop on "New Functionality in Glasses", Penn Stater Conference Center Hotel, State College, PA, June 26-30, 2005.
26. R.K. Brow, "Thermochemically stable sealing materials for solid oxide fuel cells," Solid State Energy Conversion Alliance 6th Annual Workshop, Pacific Grove, CA, Apr. 18-21, 2005.
25. R.K. Brow*, "Glass Seals for Solid Oxide Fuel Cells," Iowa State Materials Science & Engineering Seminar, Ames, IA, March 3, 2005.
24. R. K. Brow, "A new look at phosphate glasses," George W. Morey Award Lecture, Fall Meeting of the Glass & Optical Materials Division of the American Ceramic Society, Cocoa Beach, FL, Nov. 7-12, 2004.
23. R.K. Brow, "Structure and Properties of Phosphate Glasses," University of North Dakota, Physics Department Colloquium, Oct. 29, 2004.
22. R. K. Brow and S.T. Reis, "Designing Sealing Glasses for Solid Oxide Fuel Cells," ASM Materials Solution Conference, Fuel Cells: Materials, Processing and Manufacturing Technologies, Columbus, OH Oct. 18-20, 2004.
21. R.K. Brow, "Structure and Properties of Phosphate Glasses," Norbert Kreidl Memorial Conference, Trenčín and Lednické Rovne, Slovak Republic, June 23-26, 2004.
20. N.P. Lower, R. K. Brow, and C.R. Kurkjian, "Failure Studies of Silicate Glass Fibers," 106th Annual Meeting of the American Ceramic Society, Indianapolis, IN, Apr. 18-21, 2004.
19. R.K. Brow and S.T. Reis, "Sealing glasses for solid oxide fuel cells," International Symposium on Solid Oxide Fuel Cell (SOFC) Materials and Technology, 28th International Cocoa Beach Conference on Advanced Ceramics and Composites, Cocoa Beach, FL Jan 25-30, 2004.
18. R. K. Brow, N.P. Lower and C. R. Kurkjian, "The Effects of Structure on the Inert Failure Strain of Glass Fibers," Annual Meeting of the International Commission on Glass, Brazil, Sept. 2003.
17. Richard K. Brow, "Structure and properties of phosphate glass fibers," PPG Glass Technical Center, Pittsburgh, PA, May 15, 2003.
16. R.K. Brow, "Compositional Design of Sealing Glasses," 105th Annual Meeting of the American Ceramic Society, Nashville, TN, Apr. 28-May 1, 2003.
15. R.K. Brow, "Nd-doped laser glasses," Physics Colloquium, Truman State University, Nov. 20, 2002.
14. R.K. Brow and C. R. Kurkjian, "Structure and the Intrinsic Strength of Glass," 7th International Otto Schott Colloquium, Jena, Germany, July 7-10, 2002
13. R.K. Brow, "Aluminophosphate Laser Glasses," Materials Science Seminar, Physics Department, Rostock University, Rostock, Germany, July 5, 2002.

12. R. K. Brow, "Rare Earth Coordination Environments in Phosphate Glasses," PacRim IV, Wailea, Maui, Hawaii, Nov. 4-8, 2001.
11. R. K. Brow, "Reconsidering Glass Structure- Modifier Effects on Phosphate Glasses," 56th Annual Forum of the Pennsylvania Ceramic Association, Sept. 20-22, 2001, Penn State University, University Park, PA.
10. R. K. Brow, "Phosphate Glass Research," Astaris, Inc., St Louis, MO, September 6, 2000.
9. R. K. Brow, "Designing Glasses for Novel Sealing Applications," Fusite Worldwide Conference, Cincinnati, OH, July 13-14, 2000.
8. R. K. Brow "Structural Anomalies in Phosphate Glasses," 9th International Conference on the Physics of Non-Crystalline Solids, Tucson AZ, Oct. 17-21, 1999.
7. R. K. Brow, "Structure and Properties of Sealing Glasses," Coe College Physics Department Seminar, Cedar Rapids, IA, October 8, 1999.
6. R. K. Brow, "Designing Glasses for Novel Sealing Applications," Fall Meeting of the Glass & Optical Materials Division, American Ceramic Society, Cleveland, OH, Oct. 3-6, 1999.
5. R. K. Brow, "Spectroscopic Studies of Phosphate Glass Structures," American Crystallographic Association, Buffalo, N.Y., May 22-27, 1999.
4. R. K. Brow, "Structural Anomalies in Ultraphosphate Glasses," University of Illinois Materials Science and Engineering Seminar, Feb. 25, 1999.
3. R. K. Brow, "The Nature of Phosphate Glasses," Alfred University Graduate Seminar, Alfred, NY, Oct. 22, 1998.
2. R. K. Brow, "Lessons Learned Developing Sealing Glasses," Alfred University Undergraduate Seminar, Alfred, NY, Oct. 22, 1998.
1. R. K. Brow, "Phosphate Glasses," Solutia, Inc., St. Louis, MO, August 27, 1998.

Master's Theses (First Job)

20. Ted Lewis, "Specialty glass fibers for optical applications," defended Nov. 8, 2024, degree received December 2024 (*Wieland Group (formerly Olin Brass)*, East Alton, IL)
19. Aaron Read, "Additive manufacturing of glass-metal seal components," defended March 2023, walked May 2023 (*Honeywell/KCNSC*).
18. Noah Weyrauch, "Sub-critical crack growth and fatigue behavior of alkali silicate glass," defended March 2023, walked May 2023 (*Honeywell/KCNSC*).
17. Nicholas Roberts, "Microstructural development and its effect on aqueous corrosion of a borosilicate glass-ceramic for waste vitrification," defended August 2018, walked December 2018. (*CoorsTek*)
16. Fujian Tang, "Corrosion resistance of enamel coating modified by calcium silicate and sand particles for steel reinforcement in concrete" defended November 2013; walked May 2014 (*S&T Post-doc*).

Post Docs/Visiting Professors and Scientists

20. Prof. Tatsuaki Sakamoto (Ehime University, Matsuyama, Japan), 9/1/2016-8/30/2017
19. Prof. Fan-Bean Wu (National United University, Miaoli, Taiwan), 6/28/2016-12/27/2016
18. Dr. Akira Saitoh (Ehime University, Matsuyama, Japan), 8/2014-9/2014
17. Prof. Qingwei Wang (Engineering Research Center of Advanced Glass, Donghua University, Shanghai, China), 4/2014-3/2015
16. Dr. Christian Bischoff (Iowa State University), 10/2013-9/2015
15. Dr. Raphael Reis (Sao Carlos Univ., Sao Carlos, Brazil), 12/2012-9/2013
14. Prof. Francisco Serbena (Univ. Ponta Grossa, Ponta Grossa, PR, Brazil), 2/2012-7/2012
13. Dr. Jen-Hsien Hsu (Missouri S&T), 1/2011-12/2013
12. Prof. Huey-Jiuan Lin, National United University, Miaoli, Taiwan, 1/2010-2/2010
11. Dr. Luciana Ghussn (Sao Carlos University, Sao Carlos, Brazil), 1/2008-4/2008; 4/2011-9/2013
10. Prof. Hsiwen Yang (National United University, Maoli, Taiwan), 8/2007-1/2008
9. Prof. Jian Lin (Tongji University, Shanghai, China), 8/2007-11/2007
8. Dr. Nathan Lower (UMR) 2/2005-6/2005
7. Dr. Mary Reidmeyer (UMR), 9/03-9/07
6. Dr. Signo Reis (University of Sao Paulo, Sao Paulo, Brazil), 2002-2007, research associate professor 2008-2011
5. Prof. Andrew Burns (Kent State University), 9/2001-5/2002
4. Dr. Tihana Fuss (UMR)
3. Dr. Mevlut Karabulut (UMR)
2. Prof. Murat Bengisu (Eastern Mediterranean University, Cyprus), 8/2001-7/2002
1. Dr. Ezz Metwalli (National Research Center, Cairo, Egypt)

Research Contracts Awarded (UMR/Missouri S&T, since 1998):

Sponsored Research Summary: \$21.2M total, (\$9.4M individual credit to RKB)

Specific details provided on request

Teaching Interests

Professor Brow has taught courses on glass science and technology, including a sophomore-level class that introduces concepts of structure-property relationships to explain how changes in glass composition affect glass properties, and that introduces students to commercial glass manufacturing processes and the compositional design of commercial glasses. He taught a sophomore-level laboratory class, where students learn to make different types of glasses and to use thermo-analytical and optical techniques to characterize their properties. He taught a senior/grad-level course that goes into greater depth on the relationships between glass composition, structure, and properties, with an emphasis on commercial glass manufacturing. In this course, he led students through glass plants where they saw how glass is manufactured and learned how engineers can improve manufacturing processes. Finally, he taught courses, or contributed lectures to courses, on kinetic processes for materials (undergrad), optical properties (grad), and biomaterials (grad).

Courses Taught

Specific details provided upon request

Service Interests

Professor Brow's principal professional organization is the American Ceramic Society (ACerS), for which he has served in various leadership capacities, including the New Mexico section chair, the Glass and Optical Materials Division (GOMD) chair, the ACerS Board of Directors, the Executive Committee, and President of the Society. He has organized many meetings and sessions for meetings, principally for the GOMD. He was named a Distinguished Life Member of ACerS in 2020. He was a founding member of the Board of Trustees for the Ceramic and Glass Industry Foundation. He has been affiliated with the International Commission on

Glass (ICG), as a US representative to the ICG, a member of the Coordinating Technical Committee, and the President of the ICG Congress in 2019. He organized the first International Conference on Phosphate Glasses in 2014 and currently chairs its International Advisory Board. On campus, Prof. Brow has been deeply involved in a variety of service activities, particularly as it relates to the recruitment and retention of women faculty (ADVANCE Leadership team, Faculty Recruitment and Retention task force), curriculum development, and faculty awards.

Selected Service Activities of Note Since 2008

Professional Service

- Member, International Advisory Board, *International Conference on Structure of Non-Crystalline Materials* (2004-)
- Member, International Advisory Board, *International Conference on the Physics of Non-Crystalline Solids* (2007-)
- Associate Editor, *International Journal of Applied Glass Science*, 2009-
- International Editorial Board, *Journal of Non-Crystalline Solids*, 2011-
- Chair of the International Organizing Committee for the 3rd *International Conference on Phosphate Glasses*, Corning, NY, July 2023.
- US Planning Committee for the United Nations Declaration of 2022 as *The International Year of Glass*, 2019-2022
- External Advisory Board for the Glass Engineering Science program in the New York State College of Ceramics, Alfred University, 2018-
- President, 25th *International Congress on Glass*, Boston, MA, June 2019, (2013-2019)
- Chair of the International Organizing Committee and editor of the proceedings for the 2nd *International Conference on Phosphate Glasses*, St. Anne's College, Oxford, UK, July 2017
- International Advisory Board, 24th *International Congress on Glass*, Shanghai, China, April 2016
- Founding Member of the Board of Trustees, *Ceramic and Glass Industry Foundation*, 2015-2023
- Chair of the International Organizing Committee for the, 1st *International Conference on Phosphate Glasses*, Pardubice, Czech Republic, July 2014
- Member, International Advisory Board, *Center for Research, Technology and Education in Vitreous Materials (CeRTEV)*, Federal University of São Carlos, São Carlos, São Paulo State, Brazil, 2013-
- Member, Advisory Board, *International Materials Institute on New Functionalities of Glass*, Lehigh University, 2007-2015
- Past-President, *American Ceramic Society* (2013-14); chaired ACerS Nominating Committee, member of the CGIF executive director search committee; organized ACerS-ECerS education exchange partnership
- President, *American Ceramic Society* (2012-13)- led the creation of the *Ceramic and Glass Industry Foundation* and development of *Technical Interest Groups*
- President-Elect, *American Ceramic Society* (2011-12)
- Member of the Board of Directors (2007-2009), *American Ceramic Society*
- Chair, ACerS Glass and Optical Materials Division (2002-03)
- Member of the Coordinating Technical Committee of the *International Commission on Glass* (2007-2009, 2010-2012)

University Service (details provided upon request)

Community Service

- St Patrick School Board (2007-2010), President (2009/10)
- St Patrick School Science Fair Judge Coordinator, 2009-2023
- Sports Inc., Rolla (SIR) girls' basketball coach, 2008-11
- RYBS girls' softball coach, 2002-2007
