

**IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF WISCONSIN**

CHAMPION POWER EQUIPMENT, INC.

Plaintiff,

Case No: 2:24-cv-01281-LA

v.

GENERAC POWER SYSTEMS, INC.

Defendant.

**CHAMPION POWER EQUIPMENT, INC.'S OBJECTIONS AND ANSWERS
TO GENERAC POWER SYSTEMS, INC.'S SECOND SET OF
INTERROGATORIES (NOS. 2-14)**

Pursuant to Federal Rules of Civil Procedure 26 and 33, Plaintiff Champion Power Equipment, Inc. ("Plaintiff" or "Champion") by and through its undersigned attorneys, hereby provides its objections and answers to Defendant Generac Power Systems, Inc.'s ("Defendant" or "Generac") Second Set of Interrogatories (Nos. 2-14) ("Interrogatories"). Champion reserves the right to amend and/or supplement its answers as discovery, other fact-finding, and Champion's analyses continue, and to the extent allowed by the Federal Rules of Civil Procedure, the Local Civil Rules, agreement of the parties, or Order of the Court.

PRELIMINARY STATEMENT

In responding to these Interrogatories, Champion does not concede the relevancy, materiality, or admissibility of any information sought by any of these Interrogatories or offered in any response thereto. Champion's responses are made subject to and without waiver of any questions or objections as to the competency, relevancy, materiality, privilege, or admissibility as evidence or for any other purpose, of any of the information referred to or of the responses given

are presumed valid and Generac has not made a prima facie case of obviousness for which a rebuttal using secondary considerations of non-obviousness is yet warranted. Champion further objects to this Interrogatory to the extent it calls for information protected by the attorney-client privilege or the attorney work product doctrine. Champion further objects to Interrogatory No. 9 as compound. Interrogatory No. 9 asks Champion to detail all facts directed to at least six secondary considerations, identify a nexus between each of these considerations and the “claimed invention”, prematurely identify all documents and things that Champion may rely on to support each consideration, and identify persons with information for each consideration. This constitutes at least twenty-four interrogatories.

Champion further objects to Interrogatory No. 9 as vague because Generac does not define “each claimed invention”. Champion will construe this term as the claims in the Patents-in-Suit that Champion alleges Generac has infringed. Champion further objects to this interrogatory as an attempt to force Champion to prematurely identify all information that may or may not be relied upon by a damages expert in this case. Champion will adhere to the Court’s deadline for serving expert disclosures. Champion further objects on the basis that fact discovery is ongoing, and responsive information may come to light as discovery progresses.

INTERROGATORY NO. 10: For each Commercial Embodiment, identify all facts that support or refute Champion’s claim that it marked the Commercial Embodiments pursuant to 35 U.S.C. § 287. A complete answer includes the date on which each Commercial Embodiment was first sold and first marked with each Asserted Patent number, respectively; whether any Commercial Embodiments were not marked and how many and why; a description of Champion’s efforts to continuously mark each Commercial Embodiment with each Asserted Patent number,

respectively; and the date, if any, on which Champion stopped marking any Commercial Embodiment with each Asserted Patent number, respectively.

ANSWER: Champion incorporates by reference its General Objections to the Definitions and Instructions set forth above. Champion further objects to this Interrogatory in that it calls for a legal conclusion and/or expert opinion. Champion objects to this Interrogatory to the extent it calls for information protected by the attorney-client privilege or the attorney work product doctrine. Champion further objects to Interrogatory No. 10 as compound. Champion also objects to this interrogatory on the ground that it is overbroad and unduly burdensome, and as seeking information relating to “Commercial Embodiments”, which is not relevant and not proportional to the needs of the case. Champion further objects to this interrogatory as overbroad and unduly burdensome in its request for all facts for each product marked pursuant to 35 U.S.C. § 287. “All facts” are not necessary for each product; the only information necessary is information sufficient to differentiate between each of the products. Further, Champion asserts that its response hereto is based upon information known to it at this time and reserves the right to supplement this answer based upon information learned in discovery, further investigation conducted as the case progresses and admissions made during the course of the litigation.

Based on its investigation to date and subject to and without waiving its objections, Champion provides in Exhibit A information indicating the date of first marking for each applicable Embodying Product and the respective patents with which the Embodying Product was marked.

INTERROGATORY NO. 11: Identify all entities that manufacture any of the Commercial Embodiments of the Asserted Patents, including providing their legal name, address, and the names of the employees at such entity You worked with in the conception, research, design,
