6 + TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
7 +
8 + 1. Definitions.
9 +
10 + "License" shall mean the terms and conditions for use, reproduction,
11 + and distribution as defined by Sections 1 through 9 of this document.
12 +
13 + "Licensor" shall mean the copyright owner or entity authorized by
14 + the copyright owner that is granting the License.
15 +
16 + "Legal Entity" shall mean the union of the acting entity and all
17 + other entities that control, are controlled by, or are under common
18 + control with that entity. For the purposes of this definition,
19 + "control" means (i) the power, direct or indirect, to cause the
20 + direction or management of such entity, whether by contract or
21 + otherwise, or (ii) ownership of fifty percent (50%) or more of the
22 + outstanding shares, or (iii) beneficial ownership of such entity.
23 +
24 + "You" (or "Your") shall mean an individual or Legal Entity
25 + exercising permissions granted by this License.
26 +
```

```
27 + "Source" form shall mean the preferred form for making modifications,
28 + including but not limited to software source code, documentation
29 + source, and configuration files.
30 +
31 + "Object" form shall mean any form resulting from mechanical
32 + transformation or translation of a Source form, including but
33 + not limited to compiled object code, generated documentation,
34 + and conversions to other media types.
35 +
36 + "Work" shall mean the work of authorship, whether in Source or
37 + Object form, made available under the License, as indicated by a
38 + copyright notice that is included in or attached to the work
39 + (an example is provided in the Appendix below).
40 +
41 + "Derivative Works" shall mean any work, whether in Source or Object
42 + form, that is based on (or derived from) the Work and for which the
43 + editorial revisions, annotations, elaborations, or other modifications
44 + represent, as a whole, an original work of authorship. For the purposes
45 + of this License, Derivative Works shall not include works that remain
46 + separable from, or merely link (or bind by name) to the interfaces of,
47 + the Work and Derivative Works thereof.
48 +
49 + "Contribution" shall mean any work of authorship, including
50 + the original version of the Work and any modifications or additions
51 + to that Work or Derivative Works thereof, that is intentionally
52 + submitted to Licensor for inclusion in the Work by the copyright owner
53 + or by an individual or Legal Entity authorized to submit on behalf of
54 + the copyright owner. For the purposes of this definition, "submitted"
55 + means any form of electronic, verbal, or written communication sent
56 + to the Licensor or its representatives, including but not limited to
57 + communication on electronic mailing lists, source code control systems,
58 + and issue tracking systems that are managed by, or on behalf of, the
59 + Licensor for the purpose of discussing and improving the Work, but
60 + excluding communication that is conspicuously marked or otherwise
61 + designated in writing by the copyright owner as "Not a Contribution."
62 +
63 + "Contributor" shall mean Licensor and any individual or Legal Entity
64 + on behalf of whom a Contribution has been received by Licensor and
65 + subsequently incorporated within the Work.
66 +
```

67 + 2. Grant of Copyright License. Subject to the terms and conditions of
68 + this License, each Contributor hereby grants to You a perpetual,
69 + worldwide, non-exclusive, no-charge, royalty-free, irrevocable
70 + copyright license to reproduce, prepare Derivative Works of,
71 + publicly display, publicly perform, sublicense, and distribute the
72 + Work and such Derivative Works in Source or Object form.
73 +
74 + 3. Grant of Patent License. Subject to the terms and conditions of
75 + this License, each Contributor hereby grants to You a perpetual,
76 + worldwide, non-exclusive, no-charge, royalty-free, irrevocable
77 + (except as stated in this section) patent license to make, have made,
78 + use, offer to sell, sell, import, and otherwise transfer the Work,
79 + where such license applies only to those patent claims licensable
80 + by such Contributor that are necessarily infringed by their
81 + Contribution(s) alone or by combination of their Contribution(s)
82 + with the Work to which such Contribution(s) was submitted. If You
83 + institute patent litigation against any entity (including a
84 + cross-claim or counterclaim in a lawsuit) alleging that the Work
85 + or a Contribution incorporated within the Work constitutes direct

86 + or contributory patent infringement, then any patent licenses
87 + granted to You under this License for that Work shall terminate
88 + as of the date such litigation is filed.
89 +
90 + 4. Redistribution. You may reproduce and distribute copies of the
91 + Work or Derivative Works thereof in any medium, with or without
92 + modifications, and in Source or Object form, provided that You
93 + meet the following conditions:
94 +
95 + (a) You must give any other recipients of the Work or
96 + Derivative Works a copy of this License; and
97 +
98 + (b) You must cause any modified files to carry prominent notices
99 + stating that You changed the files; and
100 +
101 + (c) You must retain, in the Source form of any Derivative Works
102 + that You distribute, all copyright, patent, trademark, and
103 + attribution notices from the Source form of the Work,
104 + excluding those notices that do not pertain to any part of
105 + the Derivative Works; and
106 +

```

107 + (d) If the Work includes a "NOTICE" text file as part of its
108 +     distribution, then any Derivative Works that You distribute must
109 +     include a readable copy of the attribution notices contained
110 +     within such NOTICE file, excluding those notices that do not
111 +     pertain to any part of the Derivative Works, in at least one
112 +     of the following places: within a NOTICE text file distributed
113 +     as part of the Derivative Works; within the Source form or
114 +     documentation, if provided along with the Derivative Works; or,
115 +     within a display generated by the Derivative Works, if and
116 +     wherever such third-party notices normally appear. The contents
117 +     of the NOTICE file are for informational purposes only and
118 +     do not modify the License. You may add Your own attribution
119 +     notices within Derivative Works that You distribute, alongside
120 +     or as an addendum to the NOTICE text from the Work, provided
121 +     that such additional attribution notices cannot be construed
122 +     as modifying the License.
123 +
124 +     You may add Your own copyright statement to Your modifications and
125 +     may provide additional or different license terms and conditions

```

```

126 +     for use, reproduction, or distribution of Your modifications, or
127 +     for any such Derivative Works as a whole, provided Your use,
128 +     reproduction, and distribution of the Work otherwise complies with
129 +     the conditions stated in this License.
130 +
131 + 5. Submission of Contributions. Unless You explicitly state otherwise,
132 +     any Contribution intentionally submitted for inclusion in the Work
133 +     by You to the Licensor shall be under the terms and conditions of
134 +     this License, without any additional terms or conditions.
135 +     Notwithstanding the above, nothing herein shall supersede or modify
136 +     the terms of any separate license agreement you may have executed
137 +     with Licensor regarding such Contributions.
138 +
139 + 6. Trademarks. This License does not grant permission to use the trade
140 +     names, trademarks, service marks, or product names of the Licensor,
141 +     except as required for reasonable and customary use in describing the
142 +     origin of the Work and reproducing the content of the NOTICE file.
143 +
144 + 7. Disclaimer of Warranty. Unless required by applicable law or
145 +     agreed to in writing, Licensor provides the Work (and each
146 +     Contributor provides its Contributions) on an "AS IS" BASIS,

```

```
147 + WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
148 + implied, including, without limitation, any warranties or conditions
149 + of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
150 + PARTICULAR PURPOSE. You are solely responsible for determining the
151 + appropriateness of using or redistributing the Work and assume any
152 + risks associated with Your exercise of permissions under this License.
153 +
```

```
154 + 8. Limitation of Liability. In no event and under no legal theory,
155 + whether in tort (including negligence), contract, or otherwise,
156 + unless required by applicable law (such as deliberate and grossly
157 + negligent acts) or agreed to in writing, shall any Contributor be
158 + liable to You for damages, including any direct, indirect, special,
159 + incidental, or consequential damages of any character arising as a
160 + result of this License or out of the use or inability to use the
161 + Work (including but not limited to damages for loss of goodwill,
162 + work stoppage, computer failure or malfunction, or any and all
163 + other commercial damages or losses), even if such Contributor
164 + has been advised of the possibility of such damages.
165 +
```

```
166 + 9. Accepting Warranty or Additional Liability. While redistributing
167 + the Work or Derivative Works thereof, You may choose to offer,
168 + and charge a fee for, acceptance of support, warranty, indemnity,
169 + or other liability obligations and/or rights consistent with this
170 + License. However, in accepting such obligations, You may act only
171 + on Your own behalf and on Your sole responsibility, not on behalf
172 + of any other Contributor, and only if You agree to indemnify,
173 + defend, and hold each Contributor harmless for any liability
174 + incurred by, or claims asserted against, such Contributor by reason
175 + of your accepting any such warranty or additional liability.
176 +
```

```
177 + END OF TERMS AND CONDITIONS
```

```
178 +
```

```
179 + APPENDIX: How to apply the Apache License to your work.
```

```
180 +
```

```
181 + To apply the Apache License to your work, attach the following
182 + boilerplate notice, with the fields enclosed by brackets "[]"
183 + replaced with your own identifying information. (Don't include
184 + the brackets!) The text should be enclosed in the appropriate
185 + comment syntax for the file format. We also recommend that a
186 + file or class name and description of purpose be included on the
```

```

187 +     same "printed page" as the copyright notice for easier
188 +     identification within third-party archives.
189 +
190 +     Copyright [yyyy] [name of copyright owner]
191 +
192 +     Licensed under the Apache License, Version 2.0 (the "License");
193 +     you may not use this file except in compliance with the License.
194 +     You may obtain a copy of the License at
195 +
196 +     http://www.apache.org/licenses/LICENSE-2.0
197 +
198 +     Unless required by applicable law or agreed to in writing, software
199 +     distributed under the License is distributed on an "AS IS" BASIS,

1 + # Kubernetes

2 +

3 + Kubernetes is an open source reference implementation of container cluster
management.

4 +

5 + ## Getting started on Google Compute Engine

6 +

7 + ### Prerequisites

8 +

9 + 1. You need a Google Cloud Platform account with billing enabled. Visit
<http://cloud.google.com/console> for more details

10 + 2. You must have Go installed: [\[www.golang.org\]](http://www.golang.org)(<http://www.golang.org>)

11 + 3. Ensure that your `gcloud` components are up-to-date by running `gcloud components
update`.

12 + 4. Get the Kubernetes source: `git clone
<https://github.com/GoogleCloudPlatform/kubernetes.git>`

13 +

14 + ### Setup

15 + ```

16 + cd kubernetes

17 + ./src/scripts/dev-build-and-up.sh

18 + ```

19 +

20 + ### Running a container (simple version)

21 + ```

```
22 + cd kubernetes
23 + ./src/scripts/build-go.sh
24 + ./src/scripts/cloudcfg.sh -p 8080:80 run dockerfile/nginx 2 myNginx
25 + ```
26 +
27 + This will spin up two containers running Nginx mapping port 80 to 8080.
28 +
29 + To stop the container:
30 + ```
31 + ./src/scripts/cloudcfg.sh stop myNginx
32 + ```
33 +
34 + To delete the container:
35 + ```
36 + ./src/scripts/cloudcfg.sh rm myNginx
37 + ```
38 +
39 + ### Running a container (more complete version)
40 + ```
41 + cd kubernetes
```

```
42 + ./src/scripts/cloudcfg.sh -c examples/task.json create /tasks
43 + ```
44 +
45 + Where task.json contains something like:
46 + ```
47 + {
48 +   "ID": "nginx",
49 +   "desiredState": {
50 +     "image": "dockerfile/nginx",
51 +     "networkPorts": [{
52 +       "containerPort": 80,
53 +       "hostPort": 8080
54 +     }]
55 +   },
56 +   "labels": {
57 +     "name": "foo"
58 +   }
59 + }
60 + ```
61 +
```

```
62 + Look in the ``examples/`` for more examples
63 +
64 + ### Tearing down the cluster
65 + ``
66 + cd kubernetes
67 + ./src/scripts/kube-down.sh
68 + ``
69 +
70 + ## Development
71 +
72 + ### Hooks
73 + ``
74 + # Before committing any changes, please link/copy these hooks into your .git
75 + # directory. This will keep you from accidentally committing non-gofmt'd
76 + # go code.
77 + cd kubernetes
78 + ln -s "../hooks/prepare-commit-msg" .git/hooks/prepare-commit-msg
79 + ln -s "../hooks/commit-msg" .git/hooks/commit-msg
80 + ``
81 +
```

```
82 + ### Unit tests
83 + ``
84 + cd kubernetes
85 + ./src/scripts/test-go.sh
86 + ``
87 +
88 + ### Coverage
89 + ``
90 + cd kubernetes
91 + go tool cover -html=target/c.out
92 + ``
93 +
94 + ### Integration tests
95 + ``
96 + # You need an etcd somewhere in your path.
97 + # To get from head:
98 + go get github.com/coreos/etcd
99 + go install github.com/coreos/etcd
100 + sudo ln -s "$GOPATH/bin/etcd" /usr/bin/etcd
101 + # Or just use the packaged one:
```

```
102 + sudo ln -s "$REPO_ROOT/target/bin/etcd" /usr/bin/etcd
103 + ```
104 +
105 + ```
106 + cd kubernetes
107 + ./src/scripts/integration-test.sh
108 + ```
109 +
110 + ### Keeping your development fork in sync
111 + One time after cloning your forked repo:
112 + ```
113 + git remote add upstream https://github.com/GoogleCloudPlatform/kubernetes.git
114 + ```
115 +
116 + Then each time you want to sync to upstream:
117 + ```
118 + git fetch upstream
119 + git rebase upstream/master
120 + ```
121 +
122 + ### Regenerating the documentation
123 + Install [nodejs](http://nodejs.org/download/), [npm](https://www.npmjs.org/), and
124 + [raml2html](https://github.com/kevinrenskers/raml2html), then run:
125 + ```
126 + cd kubernetes/api
127 + raml2html kubernetes.raml > kubernetes.html
128 + ```
```

Let's give a huge like for this first commit.

justintrs on Dec 25, 2023

and the rest is history

khalidbelk on Mar 29, 2024

Came here with [FirstCommitter](#) ❤️

ngoduykhanh on Jun 6, 2024

Today is 10 years of Kubernetes 🚀

dvquang10 on Jun 9, 2024

10 years, but now I'm just starting to use it, amazingggggg 🚀

scubar on Feb 13

Thanks!

mrwan2546 on Jun 7

Thank you for making this. It's made me easier 🔥
