Re: IPR2025-01014 - *Snap, Inc. et al. v. Nokia Technologies Oy*

Dear Mr. Tsui:

In connection with IPR2025-01014, Petitioner Hisense USA Corporation hereby stipulates and agrees that, if the PTAB institutes an *inter partes* review proceeding (“IPR”) for U.S. Patent No. 8,050,321 (the “’321 patent”) on the grounds presented in the petition filed on June 23, 2025, the Hisense respondents in ITC Inv. No. 337-TA-1448 and the Hisense defendants in *Nokia Technologies Oy v. Hisense Co. Ltd. et al.*, No. 1:25-cv-01871-TWT (N.D. Ga.) will not pursue any invalidity defense that the patent claims subject to the instituted IPR are invalid (1) based on the same grounds presented in the IPR petition or (2) based on any other §§ 102 or 103 ground that includes the Kim or Adolph prior art references used in the IPR petition. To the extent there are any prior art products or systems based on the Kim or Adolph references, Hisense also agrees not to rely on those prior art products or systems in the parallel litigations. This stipulation and agreement is not intended and should not be construed to limit Hisense’s ability to assert invalidity of any claims of the ’321 patent on any other ground.

Sincerely,

Patrick J. McKeever
