Rob,

As a courtesy, FreightCar America will produce higher quality versions of FCA003 and FCA004.

Best regards,
Justin

Subject: RE: National Steel Car Limited v. FreightCar America, Inc. - Defendant's Supplemental Document Production

Brandon,

FreightCar's last two productions contain many illegible pages, especially when compared with the images in the Appendices to the Invalidity Contentions, which contain more detail and color depth. For example, page 1 of Appendix B shows a schematic of Bethlehem Steel BCIM Ore Car, which, as far as can be discerned, relates to documents bearing Bates Nos. FCA0000212 and FCA0000213. FCA0000212 and -213 are far less legible than the picture on page 1 of Appendix B. Please reproduce documents bearing Bates numbers FCA0000212-825 so that they are legible and match the image quality of the images to the Appendices to the Invalidity Contentions.

Regards,
Rob

Counsel,

FreightCar America noticed a few documents missing from its production of known related invalidating references. FreightCar America is producing those documents bearing production numbers FCA0000766 - FCA0000825, which are available for download at the link below.
