PRESIDENT DONALD J. TRUMP

Made in America

Buying and hiring American is the key to building economic prosperity and guaranteeing our national security.

Economic and national security go hand in hand. Relying on foreign suppliers creates dangerous vulnerabilities that can be exploited during national emergencies — from global pandemics to natural disasters. Buying and hiring American will help rebuild our industrial base and ensure greater resilience in any future crises. When critical industries including defense, healthcare, and manufacturing invest in American companies instead of foreign competitors,

they create high-paying jobs, enrich American communities, and guarantee the future will be Made in America.

With that in mind, we provide relevant market intelligence and resources to those interested in doing business with the U.S. government. Our goal is to maximize opportunities for American producers to supply goods and services to the federal government.

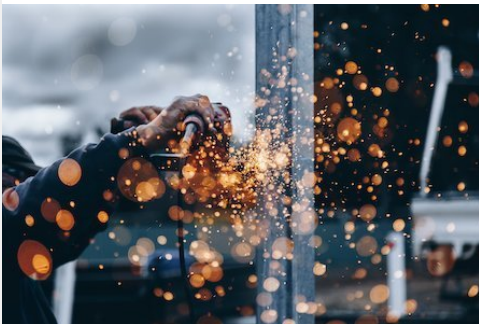

Domestic Preferences Support Agency Missions for the American Public

Various laws and regulations establish requirements for U.S. government procurement and assistance to support American manufacturing. Exceptions to these laws and regulations are allowable under certain conditions. For example, a waiver or exception from the obligation to “Buy American” will be allowed if a needed product is not made in the U.S. in sufficient and reasonably available commercial

quantities of a satisfactory quality or if it is made domestically, but not available at a reasonable cost. To ensure that waivers from Made in America laws apply clearly, consistently, and transparently, agencies will submit proposed waivers along with justification to the Made in America Office for review.

Doing Business with the U.S. Government

Become a Federal Contractor

The U.S. government seeks to maximize opportunities for small and disadvantaged businesses. There are a host of resources and free websites with information to help contractors complete the registration process and navigate the federal marketplace.

The Small Business Administration (SBA.gov) website has lots of information for small businesses.

[Visit SBA.gov](https://www.sba.gov)

Registration at the System for Award Management (SAM.gov) is required to do business with the U.S. government.

- Update, renew, or check the status of your entity registration
- Search for entity registration and exclusion records
