Counsel,

Patent Owner is authorized to file a motion to terminate by April 24, 2026, limited to 10 pages. Petitioner is authorized to file an opposition by May 8, limited to 10 pages. Patent Owner is authorized to file a reply by May 19, limited to 5 pages. No new evidence may be filed with the parties' papers, except for entered court documents in related proceedings.

The parties should consider addressing the relief requested, the basis for that relief, the authority the panel has to grant that relief, and any jurisdictional or authority issues.

Your Honors,

In the co-pending litigation involving the '024, '014, and '371 patents at issue in IPR2025-01072, -01073, -01078, the district court granted Petitioner Light & Wonder's motion to dismiss, finding all of the challenged claims to be unpatentable under § 101. A copy of that decision is attached.

In view of the district court's decision, Patent Owner Evolution requests authorization to file a motion to terminate these IPRs as maintaining them is an inefficient use of the Office's resources. Light & Wonder opposes Evolution's request.

Sincerely,

Tom Broughan
Counsel for Patent Owner Evolution
