The amendments to the claims are fully supported by the specification and drawings as originally filed. It is respectfully submitted that no new matter has been added.

Drawing Objection

The drawings are objected to under 37 C.F.R. 1.83(a) for allegedly failing to show an element of claim 2. This rejection is moot in view of the present claim amendments. Reconsideration is respectfully requested.

Claim Objections

Claims 2, 5-7, and 11 are objected to for minor informalities that are addressed by the present amendment to the claims. Reconsideration is respectfully requested.

Rejection under 35 U.S.C. § 112

Claims 2-16 stand rejected under 35 U.S.C. § 112 as allegedly being indefinite with respect to the claimed "one or more seat attachment portions." Applicant submits this rejection is moot in view of the present claim amendments. Reconsideration is respectfully requested.

Rejection under 35 U.S.C. § 102

Claims 2-16 stand rejected under 35 U.S.C. § 102 as allegedly being anticipated by U.S. Patent No. D593,459 to Liao (Liao). This rejection is traversed for at least the following reasons.

Claim 2 is amended to clarify that "at least one front wheel [is] secured directly to the front wheel support portion," and "a first seat attachment portion [is] removably attached directly to the stroller frame, wherein the first seat attachment portion does not extend in front of the at least one front wheel." Liao does not teach or suggest at least these elements of claim 2.

In particular, with reference to representative FIG. 5 of Liao (reproduced below), the alleged seat attachment portion of Liao is not attached directly to the stroller frame. If the handle portion of Liao is considered the stroller frame, to which the rearmost of the front wheels is coupled, the alleged seat attachment portion is not directly attached to the stroller frame. Instead, the alleged seat attachment portion appears to be coupled to a separate discrete component that is coupled to the frontmost front wheels. The alleged seat attachment portion also extends beyond the alleged at least one front wheel of Liao.

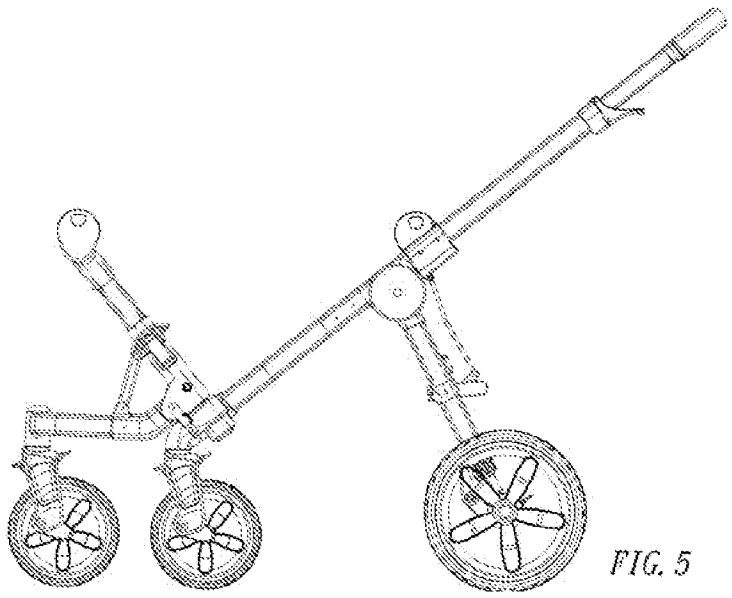

FIG. 5

As a result, Liao does not teach or fairly suggest each and every element of claim 2. Reconsideration and allowance of claims 2-16 is therefore respectfully requested.

Conclusion

It is believed that each matter raised by the Office Action has been addressed by this Response. Accordingly, allowance of the claims is respectfully solicited. It is not believed that extensions of time or additional fees are required beyond those that may otherwise be provided

for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned for under 37 C.F.R. § 1.136(a), and any fee required therefore (including any fee associated with net addition of claims) is hereby authorized to be charged to Deposit Account No. 19-5029. If there are any issues that can be resolved by teleconference or an Examiner's Amendment, the Examiner is invited to telephone the undersigned.

Respectfully submitted,

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/25/2024 has been entered.

Response to Amendment

3. The reply filed on 10/25/2024 amended claims 2-11, 13, and 16, and added Claim 17. Claims 2-17 are currently pending herein.

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Umar Bakhsh (Applicant's representative) on 11/25/2024.

7. The application has been amended as follows:

In the Claims:

Replace Claim 1, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion;

at least one front wheel secured directly to the front wheel support portion;

two rear wheels secured to the back wheel support portion;

a first seat removably attached to the stroller frame;

a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels.

Replace Claim 17, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion;

only two front wheels secured to the front wheel support portion, wherein the only two front wheels are aligned on opposite sides of the stroller frame;

only two rear wheels secured to the back wheel support portion;

a first seat removably attached to the stroller frame;

a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

the first seat attachment portion does not extend in front of the two front wheels; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second

seat are positioned such that a center of gravity of the stroller is between the two front wheels and the two rear wheels.

Replace Claim 14, with the following:

The stroller of Claim 2, wherein the second seat is configured for being attached to the first seat attachment portion in a forward-facing configuration and a backward-facing configuration.

Allowable Subject Matter

8. Claims 2-17 are allowed.

9. The following is an examiner's statement of reasons for allowance: The prior art of record when taken alone or in combination with another does not teach or fairly suggest at this time at least, among other limitations: A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising: a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion; at least one front wheel secured directly to the front wheel support portion; two rear wheels secured to the back wheel support portion; a first seat removably attached to the stroller frame; ***a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and a second seat removably attached to the first seat attachment portion and***

positioned in front of the first seat; wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels, as claimed in Claim 2 and similarly claimed in Claim 17 (emphasis added to allowable limitations not suggested or taught by the prior art).

10. The prior art discloses similar examples of convertible strollers (see attached Notice of References cited). However, the prior art does not appear to teach or fairly suggest the combination of limitations of amended independent claim 1 as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, and can be found on the attached Notice of References Cited.

5. The application has been amended as follows:

In the Claims:

Replace Claim 2, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion;

at least one front wheel secured directly to the front wheel support portion;

two rear wheels secured to the back wheel support portion;

a first seat removably attached to the stroller frame;

a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels.

Replace Claim 17, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion;

only two front wheels secured to the front wheel support portion, wherein the only two front wheels are aligned on opposite sides of the stroller frame;

only two rear wheels secured to the back wheel support portion;

a first seat removably attached to the stroller frame;

a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

the first seat attachment portion does not extend in front of the two front wheels; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second

seat are positioned such that a center of gravity of the stroller is between the two front wheels and the two rear wheels.

Replace Claim 14, with the following:

The stroller of Claim 2, wherein the second seat is configured for being attached to the first seat attachment portion in a forward-facing configuration and a backward-facing configuration.

Allowable Subject Matter

6. Claims 2-17 are allowed.

7. The following is an examiner's statement of reasons for allowance: The prior art of record when taken alone or in combination with another does not teach or fairly suggest at this time at least, among other limitations: A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising: a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion; at least one front wheel secured directly to the front wheel support portion; two rear wheels secured to the back wheel support portion; a first seat removably attached to the stroller frame; ***a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and a second seat removably attached to the first seat attachment portion and***

positioned in front of the first seat; wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels, as claimed in Claim 2 and similarly claimed in Claim 17 (emphasis added to allowable limitations not suggested or taught by the prior art).

8. The prior art discloses similar examples of convertible strollers (see attached Notice of References cited). However, the prior art does not appear to teach or fairly suggest the combination of limitations of amended independent claim 1 as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, and can be found on the attached Notice of References Cited.
