5. The application has been amended as follows:

In the Claims:

Replace Claim 2, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion; at least one front wheel secured directly to the front wheel support portion; two rear wheels secured to the back wheel support portion; a first seat removably attached to the stroller frame; a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels.

Replace Claim 17, with the following:

A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising:

a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion;

only two front wheels secured to the front wheel support portion, wherein the only two front wheels are aligned on opposite sides of the stroller frame;

only two rear wheels secured to the back wheel support portion;

a first seat removably attached to the stroller frame;

a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and

the first seat attachment portion does not extend in front of the two front wheels; and

a second seat removably attached to the first seat attachment portion and positioned in front of the first seat;

wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second

seat are positioned such that a center of gravity of the stroller is between the two front wheels and the two rear wheels.

Replace Claim 14, with the following:

The stroller of Claim 2, wherein the second seat is configured for being attached to the first seat attachment portion in a forward-facing configuration and a backward-facing configuration.

Allowable Subject Matter

6. Claims 2-17 are allowed.
7. The following is an examiner's statement of reasons for allowance: The prior art of record when taken alone or in combination with another does not teach or fairly suggest at this time at least, among other limitations: A convertible stroller configured for being converted from a single stroller to a double stroller, the stroller comprising: a stroller frame configured for being adjusted between a folded configuration and an unfolded configuration, the stroller frame comprising: a handle portion; a front wheel support portion; and a back wheel support portion; at least one front wheel secured directly to the front wheel support portion; two rear wheels secured to the back wheel support portion; a first seat removably attached to the stroller frame; ***a first seat attachment portion removably attached directly to the stroller frame, wherein a connector portion of the first seat attachment portion does not extend in front of the at least one front wheel, the first seat attachment portion comprising a locking mechanism that is configured to secure the first seat attachment portion to the stroller frame when the stroller frame is in the folded configuration; and a second seat removably attached to the first seat attachment portion and***

positioned in front of the first seat; wherein at least one of the first seat and the second seat is configured for being removably attached to the stroller frame in a forward-facing configuration and a backward-facing configuration; and wherein the first seat and the second seat are positioned such that a center of gravity of the stroller is between the at least one front wheel and the two rear wheels, as claimed in Claim 2 and similarly claimed in Claim 17 (emphasis added to allowable limitations not suggested or taught by the prior art).

8. The prior art discloses similar examples of convertible strollers (see attached Notice of References cited). However, the prior art does not appear to teach or fairly suggest the combination of limitations of amended independent claim 1 as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, and can be found on the attached Notice of References Cited.
