Subject: RE: IPR2025-01164, -01165 - Petitioner's Requested Authorization to File a Motion for Supplemental Information

[This email originated outside of F&R.]

Counsel:

Petitioner is authorized to file a motion to submit supplemental information under 37 C.F.R. § 42.123(a) within 5 days. Patent Owner is authorized, but not required, to file a response to the motion within 5 days after its filing. Petitioner is authorized, but not required, to file a reply to the response within 5 day of its filing.

Regards,

Andrew Kellogg,
Deputy Chief Clerk, Trials
Patent Trial and Appeal Board
USPTO

Subject: IPR2025-01164, -01165 - Petitioner's Requested Authorization to File a Motion for Supplemental Information

CAUTION: This email has originated from a source outside of USPTO. PLEASE CONSIDER THE SOURCE before responding, clicking on links, or opening attachments.

Your Honors,

Petitioner respectfully requests authorization to file a motion for supplemental information under 37 C.F.R. § 42.123(a) in each of IPR2025-01164 and IPR2025-01165. Petitioner is submitting this request within 30 days of the Director's decisions granting institution in each case, and the supplemental information is relevant to at least one claim for which trial has been instituted in each case.

For context, the petitions in IPR2025-01164 and IPR2025-01165 each relied on IEEE 802.11ax D1.0 ("D1.0") as prior art in certain obviousness grounds. Petitioner also relied on the same D1.0 reference in IPR2025-00934, where the Board's institution decision addressed the public accessibility of D1.0 and stated that "we would like to see further development of this issue during trial. ... We will determine, if necessary and appropriate, whether 802.11ax_D1.0 is prior art to the challenged claims ... based on the full record developed during trial." Paper 12 at 14-15. Petitioner subsequently sought and obtained authorization from the Board in IPR2025-00934 to file a motion for supplemental information, including a supplemental declaration from Dr. Christopher Hansen, further supporting the public accessibility of D1.0. Petitioner's motion was granted and the supplemental declaration was entered in IPR2025-00934 on Feb. 6, 2026 (Paper 23). Petitioner respectfully requests leave to file a similar motion for supplemental information with a similar supplemental declaration from Dr. Christopher Hansen in IPR2025-01164 and -01165.

The parties have conferred and Patent Owner provided the following position:

Patent Owner does not oppose Petitioner being granted authorization to file the proposed motions for supplemental information. Because Patent Owner has not seen the supplemental information that Petitioner intends to submit, we cannot at this point take a position on whether these motions should be granted, and we may oppose these motions as permitted under the Board's rules.

Should the Board desire a conference call, the parties will provide their mutual availability.

Respectfully,
Nicholas Stephens

Counsel for Petitioner Samsung Electronics Co., Ltd.

Nicholas Stephens
