Burkley Magnetic Detachable Wallet Case for iPhone 7+: Handmade Turkish Leather w/ Excellent Magnets!

[Burkley](#)[iPhone 7 Plus Cases](#)

APPLE EX1024

U.S. Patent No. 11,864,641 B2

Looking for a handmade leather wallet case with a magnetically detachable inner case, high card capacity and strong magnetic clasp? Check out this Burkley wallet case for iPhone 7 Plus!

**Pros:**

- * Magnetically removable inner phone case is convenient to remove, but also attaches to the outer wallet case with an extremely secure magnet.
- * Four card slots and one slide pocket will hold quite a bit.
- * Handmade from genuine Turkish leather.
- * Strong magnetic clasp keeps wallet case closed even when full of cards and cash.

- * Convenient media stand.

- * Inner case fits well on the phone.

- * Camera can be used when the case is attached to the outer wallet case, due to convenient camera opening.

Cons:

- * Camera opening in outer wallet case, while convenient, does not seem to be as robustly constructed as the rest of the case.

- * Power button works fine, but doesn't have much of a click when pressed.

- * Relatively short manufacturer's warranty period of 30 days.

The Burkley Magnetic Detachable Wallet Case for iPhone 7 Plus comes in four colors (the Burnished Tan Leather shown here, as well as Antique Camel Leather, Antique Coffee Leather, and Rolex Black Leather) and is available directly from Burkley and from Amazon for an MSRP of \$68.60. Many thanks to the kind folks at Burkley for sending me out this sample to review.
