Counsel,

The Board grants the request to align the schedule of IPR2025-01190 so that it is the same as that of IPR2025-01187. An updated Scheduling Order to that effect will be issued.

Regards,

Andrew Kellogg,
Deputy Chief Clerk, Trials
Patent Trial and Appeal Board
USPTO

You don't often get email from bcarpenter@coleschotz.com. [Learn why this is important](#)

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Your Honors:

Patent Owner proposes, and Petitioner does not object, that the schedule for IPR2025-01190 should be aligned with the schedule for IPR2025-01187. Generally, this would move the dates approximately two weeks (although some are more or less). The reasons for this are at least: (1) similarity of the instituted claims, as the '661 Patent, the subject of the '1190 IPR, is a continuation of the '896 Patent, the subject of the '1187 IPR; (2) the art at issue in the '1190 is a subset of that relied upon in the '1187; and (3) the parties are relying on the same experts for both. Furthermore, two of the members of this panel are also on the panel for the '1187. Therefore, aligning the schedules would result in efficiencies for all concerned.

If the Panel prefers to have a call to discuss these matters before deciding the issue, Patent Owner hereby requests a conference call pursuant to the Paragraph 1 of the Scheduling Order entered herein less than a month ago on January 21, 2026.

Respectfully,

Brian Carpenter (counsel for Patent Owner)
