PetroHab is set to attend Offshore Technology Conference (OTC) 2019 between 6-9 May at the NRG Park, Houston, Texas. We will be located at booth 10917.

Headquartered in Houston, PetroHab locally manufactures flexible Hot Work Safety Enclosures often referred to in the Oil & Gas Industry as “habitats”. Our Petro-Habitat™ HWSE is a pressurised habitat used in classified hazardous areas. Its panels that are made from ANSI/FM 4950 certified silicone coated fibreglass cloth and attach to each other via our patented Quadra-Lock® panel interlocking technology.

decommissioning and the trends driving
technology and innovation
