Heather Verified**Better than I expected!**

This is an amazing unit! I did not believe it until I tried it. It truly is life changing!

Debi L. Verified**Celluma POD**

I began having hip and lower leg pain and thought the Celluma POD would be much easier to move about the house as needed. I am not as happy with the little hand held device as I am with the Celluma Pro. The Celluma products as a whole are wonderful! The POD was not what I was hoping for.

Melissa K. Verified**Anti aging, warm, comforting**

I'm working on anti aging on my neck/chest and hands! It's so nice and warm. I love sitting down and using the celluma pod. I only wish I had purchased a larger one! I may buy another because it's working. My wrinkles are disappearing and it's pretty incredible!

Gloria B. Verified**Not what I expected**

This would probably work if I used it more often, but because I can't charge it and use it without it being plugged in, it's really inconvenient to use.
