Skin Health Doesn't Need to be Complicated.

We created technology that keeps skincare simple. Our goal is to rejuvenate and protect the health of your skin so your natural beauty always comes through.

We Believe in Immediate Results That Get People Noticing.

After a single treatment your skin will look as good as you feel. HydraFacial MD® is committed to restoring the health of your skin on all levels, giving you instant gratification and long term satisfaction.

It's Time to Reclaim Your Skin.

We know your time is valuable. That's why we developed an effective treatment that takes only 30 minutes, once a month, for maximum results in minimum time.

Awaken and Protect the Heath of Your Skin

From the moment you step outside in the morning, your skin feels the effects of the environment. Pollution, toxins, wind, and UV rays known as free radicals all cause undetectable damage.

Intrinsic factors, part of the natural aging process, also play a role and can contribute to enzyme loss, reduced collagen, and dehydration. The combination of intrinsic (natural) and extrinsic (environmental exposure & stress) factors can speed up the development of free radicals. This stops skin cells from performing at their best, ultimately leading to a decline in elasticity resilience, tone & texture.

HydraFacial MD® helps reverse the damage you've done while giving you tools to protect your skin and achieve long term skin health.

Fact: After the age of 20, a person produces 1% less collagen in the skin each year.

What to Expect

The HydraFacial MD® resurfacing procedure uses award winning, patented technology developed by Edge Systems' Wellness Research Division. It is an incredible, non-invasive treatment that detoxifies, rejuvenates & protects your skin for immediate results and long-term benefits without downtime or irritation.

Delivering Results

The patented Vortex-Fusion® serum delivery system and HydroPeel® Tips truly are what set the HydraFacial MD® apart from other procedures. The multi-step treatment cleanses, exfoliates and extracts to remove impurities and dead skin cells while replenishing vital nutrients including Antioxidants, Peptides and Hyaluronic Acid. These performing ingredients help mitigate environmental damage, reduce the appearance of fine lines & wrinkles, and plump & firm skin for long-term results you can see and feel instantly.
