Unique Patented HydraFacial MD®
TECHNOLOGY

The HydraFacial™ takes non-ablative facial rejuvenation to a whole new level – two levels above IPL in fact. In clinical studies performed by leading U.S. doctors, the HydraFacial™ was shown to provide better results than many other forms of rejuvenation. Plus, the HydraFacial™ take-home products augment the treatment to prolong and sustain results. Most importantly, the HydraFacial™ is the only machine of its kind that uses the 4-in-1 technology of Vortex-Cleansing™, HydroPeel® Exfoliation, Vortex-Extraction™, and Vortex-Fusion®.

Vortex-Cleansing™

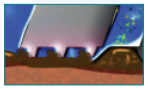

The HydroPeel® tip hydrates the skin with nutrient-rich solutions, deeply cleanses the pores, and softens and lifts away impurities.

Painless Vortex-Extraction™

The vortex effect is created to easily dislodge and remove blackheads, whiteheads, and sebum, allowing for quick and painless extractions.

HydroPeel® Exfoliation

The patented HydroPeel® tip has multiple abrasive edges that exfoliate the skin several times each pass to achieve better, even skin resurfacing results without irritation.

Vortex-Fusion®

The unique spiral design Vortex-Fuses™ hydrating skin solutions and potent antioxidants into the skin, improving the appearance of fine lines, wrinkles, oily skin & hyperpigmentation.

Immediate Results = Client Loyalty

The HydraFacial™ is designed to restore and maintain skin health for your clients – they will see results immediately, and continue to improve long after the treatment is over, thus increasing client loyalty.

For All Skin Types & Complexions

HydraFacial™ can be used for many skin conditions:

- Sun damage; hyperpigmentation; uneven skin tone
- Fine lines and wrinkles; dry or dehydrated skin
- Loss of skin clarity, resilience and firmness
- Oily and congested skin; enlarged pores (very common in men and teenagers)

YOUR LEADING-EDGE PARTNER

When you invest in HydraFacial™, you gain much more than a new piece of equipment – you receive the best and most up-to-date technology, customer service, and marketing expertise our industry has to offer. For over 15 years, Edge Systems has developed, manufactured, and sold innovative technology throughout the world.

CUSTOMER CARE

Edge's knowledgeable in-house care consultants and our in-house aesthetic are undergo rigorous training, learning the equipment and protocols. They answer every call with a welcoming voice and provide you with the assistance you need. Our customers love the personal touch and we find it is vital to our business relationships.

GLOBAL DISTRIBUTION

Edge's products have gained popularity in over 60 countries and continue to expand. Our International department specializes in international trade and business regulations, ensuring that our products obtain certifications and follow international standards.

U.S. MANUFACTURING

FDA and ISO 13485 registered, Edge takes pride in making consistent, quality devices, which are 100% tested before distribution. Our products also conform to U.S. and International standards, including CE, UL and CSA. Our Quality Assurance team offers skilled technical support and ensures that we surpass industry expectations.

R&D / ENGINEERING

Edge's electro-mechanical engineers lead the industry with over 50 years of combined experience. Equipped with the top engineering design programs and computerized part reproduction capabilities, we translate first sketches, the prototyping and testing of device ideas and market demands right in our facility. Our highly accredited chemists research and develop effective cosmetic and skin therapeutic solutions used with our devices.
