THE Alleg™ Systemro

Small Footprint

The Allegro is a contemporary countertop version designed to fit easily on treatment room counters. This is the most portable model in the HydraFacial series, great for events, parties and easily transferable between treatment rooms.

Easy to Use

Equipped with an innovative touch screen, four serum ports, and serum port toggles, operation is simple and easy. Allegro also provides a built-in storage drawer and a discreet treatment tray to keep supplies close-at-hand while still hiding clutter.

Profitable

The Allegro is designed to work with the patented cartridge handpiece. Ergonomically designed for comfort, the cartridge handpiece has a contoured grip for easy application, provides measurable serum flow, and is durable and easy to clean. The cartridge handpiece allows you to achieve higher profitability by adding booster vials to up-sell each treatment. The vials are convenient to use and compact to store.
