**Investigation No. 337-TA-1446**

**CORRECTED UNOPPOSED MOTION TO PARTIALLY TERMINATE  
THE INVESTIGATION BY WITHDRAWING ALLEGATIONS WITH  
RESPECT TO U.S. PATENT NO. 10,877,233 AND REQUEST FOR  
SUSPENSION OF THE PROCEDURAL SCHEDULE  
AS IT APPLIES TO THE '233 PATENT**

Complainants Credo Semiconductor Inc. and Credo Technology Group Ltd. (collectively, “Credo”) hereby move pursuant to Commission Rule 210.21(a) for partial termination of the Investigation with respect to all claims (1-6, 8-13, 15-19) of U.S. Patent No. 10,877,233 (the ‘233 patent) and further request a suspension of the procedural schedule as it applies to this patent.

**RULE 210.21(a)(1) CERTIFICATION**

Pursuant to Commission Rule 210.21(a)(1), Credo states that there are no agreements, oral, express, or implied, relating to termination of U.S. Patent No. 10,877,233 in this investigation.

**GROUND RULE 3.2 CERTIFICATION**

Pursuant to Ground Rule 3.2, Credo certifies that on September 9, 2025, Credo contacted the Staff and the Respondents regarding this motion. The Staff indicated that it will take a position after reviewing the motion, and counsel for all remaining Respondents indicated that they do not oppose this motion.

## ARGUMENT

Commission Rule 210.21(a) supports granting Credo's motion to partially terminate the Investigation with respect to all asserted claims of the '233 patent stating, in relevant part:

Any party may move at any time prior to the issuance of an initial determination on violation of section 337 of the Tariff Act of 1930 to terminate an investigation in whole or in part as to any or all respondents, on the basis of withdrawal of the complaint or certain allegations contained therein, or for good cause other than the grounds listed in paragraph (a)(2) of this section. . . . The presiding administrative law judge may grant the motion in an initial determination upon such terms and conditions as he deems proper.

19 C.F.R. § 210.21(a)(1).

Absent "extraordinary circumstances," the Commission historically has observed that termination of allegations in an investigation "will be readily granted to a complainant during the prehearing state of an investigation." *Certain Equipment for Telecommunications or Data Communications Networks, Including Routers, Switches, and Hubs, and Components Thereof*, Inv. No. 337-TA-574, Order No. 47 at 4 (July 22, 2008) (citations omitted) (granting motion for partial termination of investigation). *See also Certain Oscillating Sprinklers, Sprinkler Components, and Nozzles*, Inv. No. 337-TA-448, Order No. 26 at 2–3 (Sept. 25, 2001) (granting motion for termination and denying respondents' request that termination be with prejudice and conditioned on reimbursement of attorneys' fees).

There are no extraordinary circumstances that would warrant denial of this motion. Credo is no longer pursuing the asserted claims of the '233 patent (1-6, 8-13, 15-19) in this Investigation, and it hereby withdraws its allegations relating to this patent. Partial termination of this Investigation with respect to the '233 patent is in the public interest in that it will streamline the Investigation and will conserve the resources of the ALJ as well as the parties. *See Certain Electronic Devices, Including Mobile Phones and Tablet Computers, And Components Thereof*,

Inv. No. 337-TA-847, Order No. 14 at 2 (May 14, 2013) (finding partial termination in the public interest).

To further conserve the resources of the Commission and the parties, Credo requests that the procedural schedule be suspended as it relates to the '233 patent pending a ruling on this motion to partially terminate and the Commission's final determination of the same, so that the parties and the ALJ need not address pending matters and upcoming deadlines in the parties' procedural schedule that relate to the '233 patent. *See Certain Food Waste Disposers and Components and Packing Thereof*, Inv. No. 337-TA-838, Order No. 8 at 2 (granting both complainant's motion for termination and request to suspend the procedural schedule). All other deadlines as they relate to the remaining patents would remain unaffected.

For the foregoing reasons, Credo respectfully requests that the ALJ grant the motion for partial termination of the investigation with respect to asserted claims 1-6, 8-13, 15-19 of the '233 patent.
