"I am thrilled to have Jim join the Credo leadership team," said Bill Brennan, President and CEO of Credo Technology Group. "His extensive business and legal experience, especially in the connectivity space, will be indispensable as we manage new growth opportunities for all of our product lines. Jim's collaborative approach, sharp business insight, and strong leadership will be a tremendous asset to our company."

acquisitions, commercial contract negotiation, intellectual property licensing, litigation management, labor and employment matters, and enterprise risk management. Jim received his JD from Santa Clara University School of Law.

About Credo

Our mission is to deliver high-speed solutions to break bandwidth barriers on every wired connection in the data infrastructure market. Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power efficiency as data rates and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market. Our innovations ease system bandwidth

bottlenecks while simultaneously improving on power, security, and reliability. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G (or Gigabits per second), 200G, 400G, 800G and the emerging 1.6T (or Terabits per second) port markets. Credo products are based on our proprietary Serializer/Deserializer (SerDes) and Digital Signal Processor (DSP) technologies. Our product families include Integrated Circuits (ICs) for the optical and line card markets, Active Electrical Cables (AECs) and SerDes Chiplets. Our intellectual property (IP) solutions consist primarily of SerDes IP licensing.
