PETITIONERS' UPDATED MANDATORY NOTICES UNDER 37 C.F.R § 42.8

3D Systems Corporation and 3D Systems, Inc., (collectively, "Petitioners") hereby provide their updated mandatory notices under 37 C.F.R. § 42.8. This updated notice provides information regarding a recently filed stipulation, and to related matters adding an IPR against the other remaining patent at issue in the District Court.

A. Real Party-In-Interest Under 37 C.F.R. §42.8(b)(1)

The real parties-in-interest are 3D System Corporation and 3D Systems, Inc. (Petitioners).

B. Related Matters Under 37 C.F.R. §42.8(b)(2)

Patent Owner asserted the '301 Patent against Petitioners in a patent infringement lawsuit captioned *Intrepid Automation, Inc. v. 3D Systems Corporation et al.*, Case No. 3-24-cv-02262, on December 4, 2024. Petitioner filed this IPR on July 8, 2025. On July 28, 2025, Petitioner filed a stipulation notifying the Court that if IPR is instituted it will not pursue claims on any invalidity arguments that were raised or reasonably could have been raised on the instituted claims related to either the '301 or the '511 Patents, see **Exhibit 1028**. An updated exhibit list is also filed with this exhibit consistent with 37 C.F.R. § 42.63(e).

Pursuant to 37 C.F.R. § 42.8(b)(2), to the best knowledge of Petitioner, the '301 Patent is or was involved in the following cases:

E. Discretionary Denial is Not Warranted

The Board should not discretionarily deny the Petition, because the prior art was not of record, the grounds are compelling, the Petition was filed expeditiously, the parallel proceeding most recently added claims for patent infringement, a case

management conference has not set dates for a trial, and Petitioners have filed a stipulation to reduce the burden on the Court with institution, prevent duplicative work, and streamline the issues.
