Subject: RE: Omni MedSci v. Samsung et al. (Case No. 2:24-CV-01070) - Service Email

Counsel,

In advance of the upcoming Joint Claim Construction and Prehearing Statement subject to P.R. 4-3, Defendants write to inform their withdrawal of the following terms previously identified as indefinite:

- “to use artificial intelligence to process” (’484 patent, claim 10);
- “to use artificial intelligence in making decisions” (’475 patent, claim 5).

Below are the remaining terms (no indefiniteness dispute remains):

Claim Term
“beam” (’533 patent, cl. 12; ’304 patent, cls. 11, 19, 20; ’868 patent, cls. 7, 8, 9)
“modulate” / “modulating” / “modulation” (’304 patent, cl. 19; ’475 patent, cl. 13)
“modulating at least one of the semiconductor sources having an initial light intensity” (’304 patent, cl. 19)
“modulate the light source with a modulation frequency” (’475 patent, cl. 13)
“one or more filters” (’533 patent, cl. 11)
“to identify an object” (’484 patent, cl. 8; ’790 patent, cl. 7)
“personal device” (’533 patent, cl. 5)

Best,
Daniel
