Term

wherein said USB routing switch
is configured to simultaneously
provide the second
communication path between
said first USB port and said third
USB port

connecting the consumer
device via the second USB port
to the USB hub via the first USB
port through the USB routing
switch and the USB bridge

Construction

wherein said USB routing switch is configured to simultaneously provide the third
communication path between said first USB port and said third USB port

connecting the consumer device via the second USB port to the USB host via the first
USB port through the USB routing switch and the USB bridge

CLAIM CONSTRUCTIONS

10545899

Term	Construction
providing a USB hub having a plurality of USB ports interconnected to the USB host . . . automatically configuring the USB routing switch to connect a first USB Port of the plurality of USB ports to the USB hub through the USB bridge . . . ; and automatically configuring the USB routing switch to initiate bidirectional communication with the USB host, wherein the USB routing switch is configured to connect the first USB port directly to the USB hub . . .	not indefinite

11176072

Term	Construction
embedded USB host	USB host physically embedded in a vehicle
providing efficient communications among USB components of a data communication system	not indefinite

11681643

Term	Construction
signal detection circuit	not indefintie (35 USC § 112 ¶ 6 does not apply)
wherein the USB hub and USB bridge have different components and functionality	not indefinite
routing logic circuit	not indefinite

9460037

Term	Construction
some combination of embedded devices and consumer devices that are USB Devices along with at least one that is the second USB Host	not indefinite; some combination including both embedded devices and consumer devices that are USB Devices along with at least one that is the second USB Host
a USB Hub having a plurality of USB Ports and interconnected to the embedded USB Host system . . . a USB routing switch interconnected to the USB Bridge, the USB Hub, and the plurality of USB Ports, wherein the USB routing switch is configured to connect a first USB Port of the plurality of USB Ports to the USB Hub through the USB Bridge . . . , and wherein the USB routing switch is configured to connect the first	not indefinite

USB Port directly to the USB Hub . . .		embedded Universal Serial Bus (USB) Host	USB host physically embedded in a vehicle
